## FISH HEALTH INSPECTORATE VISIT REPORT

### SUMMARY FOR INFORMATION OF SITE OPERATOR

<b>BUSINESS No</b>	FB0449	<b>DATE OF CASE</b>	08/07/2020
<b>SITE No</b>	FS0861	<b>SITE NAME</b>	Loch Heather (Loch Na Creige Fraoich)
<b>INSPECTOR</b>		<b>CASE No</b>	20200259

#### Routine surveillance frequency assessment under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was contacted in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, and to meet the requirements of European Community Council Directive 2006/88/EC.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

The site has been fallow for over three years and there are currently no plans to restock the site. It will be made inactive following an inspection from the fish health inspectorate of the empty facilities.

Should you wish to restock the site in the future it must first be re-activated. This can be done by submitting an authorisation amendment application, satisfactory site specific bio-security measures plans and the relevant permissions remaining in place.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

Date: 16/07/2020
