Gross pathology observed?	N	If yes, see additional information/clinical score sheet.				
Diagnostic samples taken?	N					

UNI/REG only - if unable to carry out intended visit detail reason below:

--

Additional Case Information:

Site visited 26/8/21 for export certificate signing and 13/7/21 for ECI.

Cert MS/2021/0010 for 1000000 ballan wrasse in 20 boxes for export to Norway.

Site was visited 13/7/21, case 20210247 - all paperwork for EC completed at this time but water temp was 14c. This case is for the site inspection only as water temp was below 14c. See case 20210247 for full detail of case paperwork.

All fish on site appeared healthy with no moribund animals being observed.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS No	FB0119	DATE OF VISIT	26/08/2021
SITE No	FS1046	SITE NAME	Larval Rearing Unit
CASE No	20210313	INSPECTOR	[REDACTED]

Inspection for export

The above site was visited and a consignment of ballan wrasse larvae for export to Norway was inspected. A health certificate was issued which must travel with the consignment to the destination.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at <https://www.gov.scot/publications/fish-health-inspectorate-service-charter/>

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS No	FB0119	DATE OF VISIT	26/08/2021
SITE No	FS1046	SITE NAME	Larval Rearing Unit
CASE No	20210313	INSPECTOR	[REDACTED]

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained. No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

No animal health surveillance had been carried out on behalf of the business and/or Marine Scotland since the last Marine Scotland Inspection.

The site was inspected on 13th July 2021 and records including those relating to farm management agreements and the biosecurity measures plan were checked. However at the time of this inspection water temperature at the site was above that required for the visual assessment of fish stocks in accordance with Aquatic Animal Health (Scotland) Regulations 2009. During this visit on 26/8/21 the water temperature had reduced and a visual inspection of fish stocks was carried out. Please refer to the case of 13th July 2021 (case 20210247) for full details.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector
