Case No: 2023-0462			Date of visit: 03/10/2023
Time spent on site:	30 minutes	Main Insp	pector:
Site No: FS0777	Site Name:	Eilean Coltair	
Business No: FB0134	Business Name:	Kames Fish Farming Ltd	
Case Types: 1 REG	2 3	4 5	6
Water Temp (°C): 14.34	Thermometer No:	T310	FHI 045 completed
Observations:	Region: ST	Water type: S	CoGP MA M-40
Dead/weak/abnormally behavir	ng fish present?	Y If yes, see additional i	information/clinical score sheet.
Clinical signs of disease observ	/ed?		information/clinical score sheet.
Gross pathology observed?		N If yes, see additional i	information/clinical score sheet.
Diagnostic samples taken?		IN	
UNI/REG only - if unable to car	ry out intended visit detail	reason below:	
	Tempe	eratue above 14deg	

FHI 059, Version 13 Issued by: FHI Date of issue: 12/05/2020

Additional Case Information:

CFR nets are being deployed on site: 06/10/2023.

Site will be graded in january 2024 and fallow by July 2024.

Fish were input to site on 31/03/2023. Stock origin: Kames Bay (west).

Health visits only when required.

Wk32 2023 mortality not reported to FHI at the time. Now reported. No further action.

During the physical inspection only 4 mortalities and 2 moribund fish were observed across the three pens onsite. Fish were shoaling just below the surface. Sea lice were observed at low levels however freshwater treatment was scheduled for the following week. Feed response was not observed due to the slow reintroduction of feed after the recent starvation period that ended the day of inspection. The site was getting ready to install CFR nets on site - these are a precautionary measure as the seal haul out site adjecent to the farm has historically caused a mortality problem, however, seal predation has not been an issue so far this cycle.

Physical inspection carried out 03/10/2023 by paperwork inspected by 06/10/2023.

Case No: 2023-0462 Site No: FS0777

Sea Lice Inspection (Seawater Sites Only)

- 1. Has the site experienced sea lice problems in the previous 4 years?
- 2. Is the CoGP Farm Management Area (or equivalent) fallowed synchronously on a single year class basis?
- 3. Does the site have access to a range of licenced in-feed and bath sea lice medications (including deltamethrin, azamethiphos an benzoate) as well as access to suitable biological and/or mechanical control measures, and can these be deployed in a reasonable time?
- 4. Is there a signed documented farm management agreement or statement relevant to the site and CoGP Farm Management Area equivalent)?
- 5. Are sea lice count records available for inspection? (Legal SSI, CoGP Annex 6)
- 6. Do records adequately reflect the required standard specified in the SSI and the CoGP? (Legal SSI, CoGP Annex 6)
- 7. Are sea lice (*L. salmonis*) record levels below the suggested criteria for treatment in the CoGP during the period that records are (CoGP Annex 6)
- 8. Have average adult female sea lice (*L. salmonis*) numbers per fish been at a level of 3 or above (prior to w/b 10/6/19) or 2 or about 10/6/19) during the period that records are inspected?

If yes, have these been reported to the Fish Health Inspectorate? If no, FHI see comment.

- 9. Is C. elongatus infestation at a level which is considered to cause significant welfare problems? (CoGP 4.3.81, 5.3.50)
- 10. Have therapeutic treatments been administered or other actions taken when *L. salmonis levels* have exceeded the suggested of treatment or where *C. elongatus* is considered to have welfare implications? (CoGP 4.3.82, 5.3.51)
- 11. Has any other action been taken (where applicable)?
- 12. Have therapeutic treatments or the actions taken had a significant impact upon the lice levels recorded?
- 13. Are treatments, where conducted, carried out in cooperation between participating farms?
- 14. Is there a harvesting strategy for the site, where fewer populations or part populations are held without treatment for sea lice?
- 15. Is there a site specific written lice management procedure with waypoints describing set actions to deal with recognised scenari escalation of a sea lice infestation?
- 16. Do the sea lice levels observed on stocks reflect sea lice count data? If no please detail reasons.

Containment Inspection

- 1. Has the site experienced equipment damage due to predators in the current or previous production cycles?
- 2. Are measures in place to mitigate against the predation experienced on site? (Detail below)

top nets, tensioned nets and CFR.

If other, detail below:

- 3. Have escape incidents or events been experienced on or in the vicinity of the site since the last FHI inspection?
- If Yes proceed with questions 4 9. If No skip to question 10
- 4. Have these been reported to Scottish Ministers?
- Have these been reported to local DSFB forthwith (where they exist)? (CoGP 4.4.37, 5.4.17)
- Have these been reported to the SSPO and local fisheries trusts forthwith (where they exist)? (CoGP 4.4.37, 5.4.17)
- 7. Were methods (if any) used to recover escapees? If yes give detail

8.	If gill nets were deployed was this action agreed with local wild fish interests and was permission given by Sc	ottish Ministers?	(L
4.4	4.38. 5.4.18)		

9. What action was taken to prevent and minimise the risk of further escapes? (Not covered in code but could

be considered under satisfactory measures of the Act)

10. Is the site inspected as satisfactory with regards to containment? If no, please detail reason(s)

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

 BUSINESS NO
 FB0134
 DATE of VISIT
 03/10/2023

 SITE NO
 FS0777
 SITE NAME
 Eilean Coltair

 CASE NO
 20230462
 Inspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

On this occasion, the water temperature was above 14°C, therefore an ECI inspection could not be carried out.

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

Records

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Scottish Government website at Fish Health Inspectorate Service Charter - gov.scot (www.gov.scot)

Date: 22/12/2023
