FHI 059, Version 13	Issued by: FHI Date of issue: 12/05/2020
Case No: 2024-0471	Date of visit: 03/12/2024
Time spent on site:	Main Inspector:
Site No: Business No: FS1061 FB0061 Site Name: Business Name:	Inverkerry Hatchery Landcatch Natural Selection Ltd
Case Types: 1 ECI 2 CNI 3	4 5 6
Water Temp (°C): 6 Thermometer No:	T173 FHI 045 completed N/A
Observations: Region: HI	Water type: F CoGP MA
Dead/weak/abnormally behaving fish present? Clinical signs of disease observed? Gross pathology observed? Diagnostic samples taken?	Y If yes, see additional information/clinical score sheet. N If yes, see additional information/clinical score sheet. N If yes, see additional information/clinical score sheet. N
UNI/REG only - if unable to carry out intended visit de	etail reason below:

Additional Case Information:

Recent input of ova from StofnFiskur on the 21.11.2024, no issues since input. No picking has been required since being laid down. A few dead ova noted.

No treatments have been required since the hatchery was refurbished in 2021, so no records maintained. If treatments were administered records would be kept on fish talk.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

Business No FB0061 Date of Visit 03/12/2024

SITE NO FS1061 SITE NAME Inverkerry Hatchery
CASE NO 20240471 INSPECTOR

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as high. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted annually. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

No animal health surveillance had been carried out on behalf of the business or Marine Directorate since the last Marine Directorate inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007 with respect to section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: Date: 05/12/2024
Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Scottish Government website at Fish Health Inspectorate Service Charter - gov.scot (www.gov.scot)
