FHI 059, Version 13	lssu	ed by: FHI	Date of issue: 12/05/2020
Case No: 2025-0013			Date of visit: 18/03/2025
Time spent on site:	3hrs	Main Inspect	or:
Site No: FS1312 Business No: FB0095	Site Name: Business Name:	Skelwick Skerry Cooke Aquaculture Scotland	Ltd
Case Types: 1 ECI	2 CNI 3 SLI	4 VMD 5	6
Water Temp (°C): 8.6	Thermometer No:	T310	FHI 045 completed
Observations:	Region: OR	Water type: S	CoGP MA: O-1
Dead/weak/abnormally behavin Clinical signs of disease observ Gross pathology observed? Diagnostic samples taken? UNI/REG only - if unable to carr	ved?	NIf yes, see additional infoNIf yes, see additional infoN	rmation/clinical score sheet. rmation/clinical score sheet. rmation/clinical score sheet.

FHI 059, Version 13 Additional Case Information:

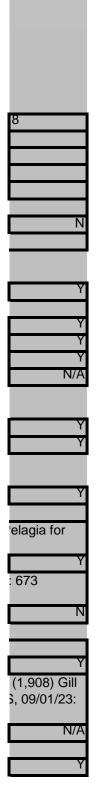

Site has only used tricaine for lice counts since last inspection. FW with FLS has been used on site. Recent health reports state no AGD on site and low lice levels.

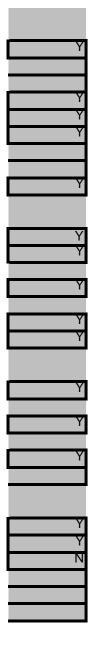

Most mortality this cycle has been attributed to environmental/handling/transport.

General population of fish on site appeared in good physical health and were active in the cages. No moribund fish were observed on the site. A handful of fish were observed with physical damage from handling but these were <10 across the site and could not be caught with a handnet.

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

 BUSINESS NO
 FB0095

 SITE NO
 FS1312

 CASE NO
 20250013

DATE OF VISIT18/03/2025SITE NAMESkelwick SkerryINSPECTORInspector

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Directorate were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 27/03/2025
