FHI 059, Version 13		Issued by: FHI	Date of issue: 12/05/2020							
Case No: 2025-0076			Date of visit: 11/03/2025							
Time spent on site:	4h	Main Ins	pector:							
Site No: FS1262 Business No: FB0169	Site Name: Business Name:	Sgeir Dughall Bakkafrost Scotland								
Case Types: 1 ECI	2 CNI 3 SLI	4 VMD 5	6							
Water Temp (°C): 8.6	Thermometer No:	T173	FHI 045 completed N/A							
Observations:	Region: HI	Water type: S	CoGP MA M-17							
Dead/weak/abnormally behaving fish present?  Clinical signs of disease observed?  Gross pathology observed?  Diagnostic samples taken?  If yes, see additional information/clinical score sheet.  N  If yes, see additional information/clinical score sheet.  N  N										
UNI/REG only - if unable to carry out intended visit detail reason below:										

#### **Additional Case Information:**

Peaks in mortality 2023: wk 20 10946 (3.25%), wk 21 8847 (2.71%), wk 22 3701 (1.67%), wk 23 1046 (0.81%), mainly attributed to CMS, site was fallow wk 25.

Treatments are not synchronised but aim too where possible.

No cleaner fish used on site.

Some fish were transferred to Quarry Point, this is to aid harvesting and also reduce biomass. Risk assessment for the transfer was available.

One pen fully inspected from the walkway however weather conditions did not allow walkway access on the remaining 13 pens, these were inspected from the boat. Stock was also inspected using the feed cameras from the barge.

## FISH HEALTH INSPECTORATE VISIT REPORT

#### SUMMARY FOR INFORMATION OF SITE OPERATOR

Business NoFB0169Date of Visit11/03/2025Site NoFS1262Site NameSgeir DughallCase No20250076Inspector

#### Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

#### Records

The surveillance frequency category of the site was assessed as medium. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every second year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Directorate were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

# Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

### Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, with respect to section 3 regarding parasites (sea lice), section 4A regarding fish farm management agreements and statements and section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory with regards to parasites, fish farm management agreements and statements and containment and escapes.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed: Date: 18/3/2025
Fish Health Inspector
