Sea Lice Inspection (Seawater Sites Only)		
1. Has the site experienced sea lice problems	in the previous 4 years?	
2. Is the CoGP Farm Management Area (or e	quivalent) fallowed synchronously on a single ye	ar class basis?
	enced in-feed and bath sea lice medications (inc vell as access to suitable biological and/or mech ime?	
4. Is there a signed documented farm managed Area (or equivalent)?	ement agreement or statement relevant to the sit	te and CoGP Farm Management
5. Are sea lice count records available for ins	pection? (Legal SSI, CoGP Annex 6)	
6. Do records adequately reflect the required	standard specified in the SSI and the CoGP? (Le	egal SSI, CoGP Annex 6)
7. Are sea lice (L. salmonis) record levels beloare inspected? (CoGP Annex 6)	ow the suggested criteria for treatment in the Co	GP during the period that records
8. Have weekly average adult female sea lice	counts at or above the intervention level been re-	eported accurately?
If no, please detail in additional information.		
9. Is <i>C. elongatus</i> infestation at a level which	is considered to cause significant welfare proble	ems? (CoGP 4.3.81, 5.3.50)
	stered or other actions taken when <i>L. salmonis lelongatus</i> is considered to have welfare implication	
11. Has any other action been taken (where a	applicable)?	
·	s taken had a significant impact upon the lice lev	vels recorded?
13. Are treatments, where conducted, carried	out in cooperation between participating farms?	
14. Is there a harvesting strategy for the site, lice?	where fewer populations or part populations are	held without treatment for sea
15. Is there a site specific written lice manage scenarios during the escalation of a sea lice in	ement procedure with waypoints describing set ann nestation?	ctions to deal with recognised
16. Do the sea lice levels observed on stocks	reflect sea lice count data? If no please detail re	easons.
Containment Inspection		
	ge due to predators in the current or previous pro he predation experienced on site? (Detail below)	
2. Are measures in place to mitigate against t	The predation expenenced on site? (Detail below)	Ť
If other, detail below:	<u> </u>	
Fence around site		
3. Have escape incidents or events been expe	erienced on or in the vicinity of the site since the	last FHI inspection?
If Yes proceed with questions $4-9$. If No skip	to question 10	
4. Have these been reported to Scottish Minis		
	orthwith (where they exist)? (CoGP – 4.4.37, 5.4.	
6. Have these been reported to the SSPO and	d local fisheries trusts forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
7. Were methods (if any) used to recover esc	apees? If yes give detail	
8. If gill nets were deployed was this action ac (Legal, CoGP – 4.4.38, 5.4.18)	greed with local wild fish interests and was permi	ssion given by Scottish Ministers?
9. What action was taken to prevent and mini	mise the risk of further escapes? (Not covered in	code but could
be considered under satisfactory measur	res of the Act)	
10. Is the site inspected as satisfactory with re	egards to containment? If no, please detail reasc	on(s)

Fish Health Inspectorate visit report

Summary for information of site operator

Business no: FB0235 Date of visit: 21/10/2025 Site no: FS0388 Site name: Coutts Mill

Case no: 20250390 Inspector:

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

R04

UKAS Accredited Inspection Body - Type C No. 0269
Marine Laboratory, 375 Victoria Road, Aberdeen, AB11 9DB
Telephone - 0131 244 3498
Email - ms.fishhealth@gov.scot
Fish Health Inspectorate Website

No animal health surveillance had been carried out on behalf of the business and/or Marine Directorate since the last Marine Directorate inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007 with respect to section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Scottish Government website at <u>Fish Health Inspectorate Service Charter</u> - gov.scot (www.gov.scot)
