Post mortem signs observed?	N	If yes, see additional information/clinical score sheet.				
Diagnostic samples taken?	N					
UNI/REG only - if unable to carry out intended visit detail reason below:						

**Additional Case Information:**

Fish reported to be growing well. Site to be fallow by end of Feb 2026.

Some issues with fungus prior to transfer, treatments with formalin administered.

Case No: 2025-0457

Site No: FS0890

Date of Visit: 24/11/2025

Main Insp:

**Registration/Authorisation Details**

1. Business/site details summary checked by site representative?  
2. Changes made to details?

Y  
Y

**Site Details (include cleaner fish for all sections)**

Total No facilities	28	Facilities stocked	7	No facilities inspected	28
Species	Atlantic salmon				
Age group	2025				
No Fish	322,080				
Mean Fish Wt	88g				
Next Fallow Date (Site)	Mid Feb 2025	Next Input Date (Site)	June 2026		
Recent (last 4 wks) disease problems?		N	Any escapes (since last visit)?		N
If yes, detail:					

**Movement Records**

1. Movement records for **all species** held available for inspection?  
2. Date of last inspection:  
3. Are records complete and correctly entered?  
4. Are movement records available for dead fish and waste?  
5. Are records complete and correctly entered?  
6. Have all introductions and imports (since last inspection) from outwith the GB health zone been recorded the movement records?

**Sea Lice Inspection (Seawater Sites Only)**

1. Has the site experienced sea lice problems in the previous 4 years? N/A
2. Is the CoGP Farm Management Area (or equivalent) followed synchronously on a single year class basis? N/A
3. Does the site have access to a range of licenced in-feed and bath sea lice medications (including deltamethrin, azamethiphos and emamectin benzoate) as well as access to suitable biological and/or mechanical control measures, and can these be deployed in a reasonable period of time? N/A
4. Is there a signed documented farm management agreement or statement relevant to the site and CoGP Farm Management Area (or equivalent)? N/A
5. Are sea lice count records available for inspection? (Legal SSI, CoGP Annex 6) N/A
6. Do records adequately reflect the required standard specified in the SSI and the CoGP? (Legal SSI, CoGP Annex 6) N/A
7. Are sea lice (*L. salmonis*) record levels below the suggested criteria for treatment in the CoGP during the period that records are inspected? (CoGP Annex 6) N/A
8. Have weekly average adult female sea lice counts at or above the intervention level been reported accurately? N/A  
If no, please detail in additional information.
9. Is *C. elongatus* infestation at a level which is considered to cause significant welfare problems? (CoGP 4.3.81, 5.3.50) N/A
10. Have therapeutic treatments been administered or other actions taken when *L. salmonis* levels have exceeded the suggested criteria for treatment or where *C. elongatus* is considered to have welfare implications? (CoGP 4.3.82, 5.3.51) N/A
11. Has any other action been taken (where applicable)? N/A
12. Have therapeutic treatments or the actions taken had a significant impact upon the lice levels recorded? N/A
13. Are treatments, where conducted, carried out in cooperation between participating farms? N/A
14. Is there a harvesting strategy for the site, where fewer populations or part populations are held without treatment for sea lice? N/A
15. Is there a site specific written lice management procedure with waypoints describing set actions to deal with recognised scenarios during the escalation of a sea lice infestation? N/A
16. Do the sea lice levels observed on stocks reflect sea lice count data? If no please detail reasons. N/A

**Containment Inspection**

1. Has the site experienced equipment damage due to predators in the current or previous production cycles? N
  2. Are measures in place to mitigate against the predation experienced on site? (Detail below) Y
- |          |                |  |  |  |  |
|----------|----------------|--|--|--|--|
| Top Nets | Tensioned Nets |  |  |  |  |
|----------|----------------|--|--|--|--|
- If other, detail below:
3. Have escape incidents or events been experienced on or in the vicinity of the site since the last FHI inspection? N  
If Yes proceed with questions 4 – 9. If No skip to question 10
  4. Have these been reported to Scottish Ministers?
  5. Have these been reported to local DSFB forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
  6. Have these been reported to the SSPO and local fisheries trusts forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
  7. Were methods (if any) used to recover escapees? If yes give detail
  8. If gill nets were deployed was this action agreed with local wild fish interests and was permission given by Scottish Ministers? (Legal, CoGP – 4.4.38, 5.4.18)
  9. What action was taken to prevent and minimise the risk of further escapes? (Not covered in code but could be considered under satisfactory measures of the Act)
  10. Is the site inspected as satisfactory with regards to containment? If no, please detail reason(s) Y

# Fish Health Inspectorate visit report

## Summary for information of site operator

Business no:	FB0341	Date of visit:	24/11/2025
Site no:	FS0890	Site name:	Jubilee Loch Shin
Case no:	20250457	Inspector:	

## Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

### Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Records in relation to aquaculture animals transported by the business were inspected and found to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

R04

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Directorate were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

## **Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015**

Medicine records were inspected and found to be adequately maintained.

Samples were taken to be analysed for veterinary residues.

## **Inspection under the Aquaculture and Fisheries (Scotland) Act 2007**

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007 with respect to section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 04/12/2025
