Case Types:	1 REP	2 REG	3	4	5	6
Water Temp (°C):	10.2	Thermometer No:	T173	FHI 045 completed	N/A	
Observations:	Region:	HI	Water type:	S	CoGP MA:	M-1
Dead/weak/abnormally behaving fish present?	Y		If yes, see additional information/clinical score sheet.			
Clinical signs of disease observed?	Y		If yes, see additional information/clinical score sheet.			
Post mortem signs observed?	N/A		If yes, see additional information/clinical score sheet.			
Diagnostic samples taken?	N/A					
UNI/REG only - if unable to carry out intended visit detail reason below:						

Additional Case Information:

Mortalities had been low throughout the cycle with fish reported to be growing well with no health issues. Unexpected spike was recorded at the start of November and was exacerbated by a FW treatment for AGD starting on the 10/11/2025 and ending 18/11/2025 with the whole site being treated. Morts for last four weeks: wk 45 17757 (5.69%), wk 46 32049 (10.89%), wk 47 23625 (9.01%), Wk 48 6100 (2.56%). AGD post FW treatment

Poor weather made it difficult to remove morts through November but the majority of morts have been removed.

No movements since the last Inspection.

Morts usually incinerated but due to volume whole fish uplifted by Billy Bowie and disposed of in Barkip.

A peroxide treatment was administered 25/7/2025 to 28/7/2025 for AGD.

On inspection of the site, divers and site staff were removing mortalities, some old dead morts were observed and one lethargic fish, this couldn't be caught. Population appeared in good general health although visibility was limited due to weather conditions.

Case No: 2025-0471

Site No: FS0361

Date of Visit: 26/11/2025

Registration/Authorisation Details

1. Business/site details summary checked by site representative?

Y

2. Changes made to details?

Y

Site Details (include cleaner fish for all sections)

Total No facilities	10	Facilities stocked	10	No facilities inspected	10
Species	Atlantic salmon				
Age group	2025 Q1				
No Fish	230,497				
Mean Fish Wt	2.5kg				
Next Fallow Date (Site)	July 2026	Next Input Date (Site)	Winter 2026		
Recent (last 4 wks) disease problems?		Y	Any escapes (since last visit)?		N
If yes, detail:	AGD				

Movement Records1. Movement records for **all species** held available for inspection?

Y

2. Date of last inspection:

01/05/2025

3. Are records complete and correctly entered?

Y

4. Are movement records available for dead fish and waste?

Y

5. Are records complete and correctly entered?

Y

6. Have all introductions and imports (since last inspection) from outwith the GB health zone been recorded in the movement records?

N/A

Transport Records

1. Are any movements carried out not using a STB (by (or on behalf of) the business)?

If yes, is there a system in place for maintenance of transportation records?

Mortality Records1. Mortality records for **all species** held available for inspection?

Y

2. How are mortalities disposed of?

Biogas - Barkip

If other detail:

3. Mortality records complete and correctly entered?

Y

4. Recent mortality (last 4 wks):

see additional information

5. Evidence of recent increased/atypical mortalities?

Y

If yes, facility nos/no mortality per facility/no stock per facility/reason:

see additional information

6. Any other peaks in mortality during period checked?

N

If yes, detail:

7. Have increased (unexplained) mortalities been reported to vet or FHI?

N/A

If yes, detail action:

8. Have 'mortality events' been reported to FHI? If no, enter details on mortality events sheet.

Y

Treatments and Medicines Records

1. Recent treatments (see comment)?

If yes, detail:

T.M.S.

If other, detail: **freshwater**

2. Medicines records available for inspection?

3. Are records complete and correctly entered?

4. Are fish in a withdrawal period?

5. If yes, what treatment(s)?

T.M.S.

If other, detail:

6. Are medicines stored appropriately?

Biosecurity Records

1. Biosecurity records available for inspection?

2. Has the manner and frequency of mortality removal, recording and safe disposal been considered?

3. Has the manner and period in which the APB will notify Scottish Ministers or veterinary professional of any *increased (unexplained)* mortality at the site been included?

4. Has the action that will be taken in the event that the presence or suspicion of the presence of a listed disease is detected been included and *how* and *when* that will be notified to Scottish Ministers?

5. Has the health status of aquaculture animals being stocked on the farm site been covered (equal or higher health status, certification if required)?

6. Have the husbandry and biosecurity measures implemented between each epidemiological unit to minimise transmission of disease been covered (movement of staff, visitors, equipment, live or dead fish etc.)?

7. Is documentation available regarding the measures in place to maintain the physical containment of aquaculture animals held on site?

8. Have the biosecurity procedures been adequately implemented on site?

If no, detail:

Results of Surveillance

1. Has any animal health surveillance been carried out by, or on behalf of, the business?

2. If yes, are results available for inspection?

3. Any significant results?

If yes, detail (if not detailed under recent disease problems).

Amended Fish Health Inspectorate visit report

Summary for information of site operator

Business no:	FB0125	Date of visit:	26/11/2025
Site no:	FS0361	Site name:	Sian Bay
Case no:	20250471	Inspector:	██████████

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

This report replaces the fish health report R10 issued on the 5/12/2025 by ██████████. The previous report should be discarded. It stated that the movement records were inadequately maintained when it should have stated that they were adequately maintained.

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, following reports of elevated mortalities.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

Records

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated.

The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

R10

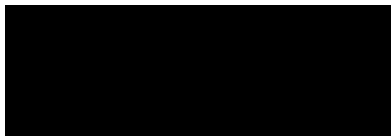

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 9/12/2025
