Dead/weak/abnormally behaving fish present?

 Y If yes, see additional information/clinical score sheet.

Clinical signs of disease observed?

 N If yes, see additional information/clinical score sheet.

Post mortem signs observed?

 N If yes, see additional information/clinical score sheet.

Diagnostic samples taken?

 N

UNI/REG only - if unable to carry out intended visit detail reason below:

**Additional Case Information:**

Input of fish - start 20/11/2025, from Ormsary Smolt Unit (FS0575). Transporter - Solway

Any mortalities that occur during transfer get allocated to the mortality on site and noted in Aquafarmer, in addition to transfer sheet provided by the source who note number of mortalities per lorry/load on it.

Fish are in withdrawal for Aquacen (500dd). Site is regularly treating with Aquacen and Cress to remain on top of any fungus issues during this stock/production cycle.

Mortality for wk 45 (1.99%, 29127) and wk46 (2.11%,18787) attributed to fungus/poor performers. From health reports inspected, evidence of gas bubble disease was noted and as a result was the primary cause for morbidity, with fungus attributed as a secondary infection due to compromised immune system of the fish.

Few lethargic fish were observed, some with no tail fins. It was noted that some fish had arrived to Tervine with fin rot; Flavobacterium sp. was identified as cause. No fish were taken for diagnostic or VMD sampling.

**Movement Records**

1. Movement records for **all species** held available for inspection?

2. Date of last inspection:  11/09/2025

3. Are records complete and correctly entered?

4. Are movement records available for dead fish and waste?

5. Are records complete and correctly entered?

6. Have all introductions and imports (since last inspection) from outwith the GB health zone been recorded in the movement records?  N/A

the movement records?

**Transport Records**

1. Are any movements carried out not using a STB (by (or on behalf of) the business)?

If yes, is there a system in place for maintenance of transportation records?

**Mortality Records**

1. Mortality records for **all species** held available for inspection?

2. How are mortalities disposed of?  Other (detail)

If other detail:  whole fish ensiled in a skip and then taken away via Billy Bowie to Barkip Biogas.

3. Mortality records complete and correctly entered?

4. Recent mortality (last 4 wks):  Wk46,18787, 2.11% (Fungus); Wk47: 831, 0.138%; Wk48,1082 ,0.134%;Wk49, 504, 0.062%;

5. Evidence of recent increased/atypical mortalities?

If yes, facility nos/no mortality per facility/no stock per facility/reason:

6. Any other peaks in mortality during period checked?

If yes, detail:

7. Have increased (unexplained) mortalities been reported to vet or FHI?  N/A

If yes, detail action:

8. Have 'mortality events' been reported to FHI? If no, enter details on mortality events sheet.  Y

**Treatments and Medicines Records**

|  |                    |  |  |  |  |  |   |
|--|--------------------|--|--|--|--|--|---|
| 1. Recent treatments (see comment)?            |                    |  |  |  |  |  | Y |
| If yes, detail:                                | Cress              |  |  |  |  |  |   |
| If other, detail:                              | Aquacen (formalin) |  |  |  |  |  |   |
| 2. Medicines records available for inspection? |                    |  |  |  |  |  | Y |
| 3. Are records complete and correctly entered? |                    |  |  |  |  |  | Y |
| 4. Are fish in a withdrawal period?            |                    |  |  |  |  |  | Y |
| 5. If yes, what treatment(s)?                  |                    |  |  |  |  |  |   |
| If other, detail:                              | Aquacen (formalin) |  |  |  |  |  |   |
| 6. Are medicines stored appropriately?         |                    |  |  |  |  |  | Y |

**Biosecurity Records**

|   |  |  |  |  |  |  |   |
|---|--|--|--|--|--|--|---|
| 1. Biosecurity records available for inspection?  |  |  |  |  |  |  | Y |
| 2. Has the manner and frequency of mortality removal, recording and safe disposal been considered?  |  |  |  |  |  |  | Y |
| 3. Has the manner and period in which the APB will notify Scottish Ministers or veterinary professional of any <i>increased (unexplained)</i> mortality at the site been included?                                  |  |  |  |  |  |  | Y |
| 4. Has the action that will be taken in the event that the presence or suspicion of the presence of a listed disease is detected been included and <i>how and when</i> that will be notified to Scottish Ministers? |  |  |  |  |  |  | Y |
| 5. Has the health status of aquaculture animals being stocked on the farm site been covered (equal or higher health status, certification if required)?   |  |  |  |  |  |  | Y |
| 6. Have the husbandry and biosecurity measures implemented between each epidemiological unit to minimise transmission of disease been covered (movement of staff, visitors, equipment, live or dead fish etc.)?     |  |  |  |  |  |  | Y |
| 7. Is documentation available regarding the measures in place to maintain the physical containment of aquaculture animals held on site?   |  |  |  |  |  |  | Y |
| 8. Have the biosecurity procedures been adequately implemented on site?   |  |  |  |  |  |  | Y |
| If no, detail:  |  |  |  |  |  |  |   |

**Results of Surveillance**

|   |  |  |  |  |  |  |   |
|---|--|--|--|--|--|--|---|
| 1. Has any animal health surveillance been carried out by, or on behalf of, the business? |  |  |  |  |  |  | Y |
| 2. If yes, are results available for inspection?  |  |  |  |  |  |  | Y |
| 3. Any significant results?   |  |  |  |  |  |  | Y |
| If yes, detail (if not detailed under recent disease problems).                           | Mild gas bubble disease and HSS and Flavobacterium sp. (fin rot) |  |  |  |  |  |   |

**Sea Lice Inspection (Seawater Sites Only)**

1. Has the site experienced sea lice problems in the previous 4 years?
2. Is the CoGP Farm Management Area (or equivalent) fallowed synchronously on a single year class basis?
3. Does the site have access to a range of licenced in-feed and bath sea lice medications (including deltamethrin, azamethiphos and emamectin benzoate) as well as access to suitable biological and/or mechanical control measures, and can these be deployed in a reasonable period of time?
4. Is there a signed documented farm management agreement or statement relevant to the site and CoGP Farm Management Area (or equivalent)?
5. Are sea lice count records available for inspection? (Legal SSI, CoGP Annex 6)
6. Do records adequately reflect the required standard specified in the SSI and the CoGP? (Legal SSI, CoGP Annex 6)
7. Are sea lice (*L. salmonis*) record levels below the suggested criteria for treatment in the CoGP during the period that records are inspected? (CoGP Annex 6)
8. Have weekly average adult female sea lice counts at or above the intervention level been reported accurately?
- If no, please detail in additional information.
9. Is *C. elongatus* infestation at a level which is considered to cause significant welfare problems? (CoGP 4.3.81, 5.3.50)
10. Have therapeutic treatments been administered or other actions taken when *L. salmonis* levels have exceeded the suggested criteria for treatment or where *C. elongatus* is considered to have welfare implications? (CoGP 4.3.82, 5.3.51)
11. Has any other action been taken (where applicable)?
12. Have therapeutic treatments or the actions taken had a significant impact upon the lice levels recorded?
13. Are treatments, where conducted, carried out in cooperation between participating farms?
14. Is there a harvesting strategy for the site, where fewer populations or part populations are held without treatment for sea lice?
15. Is there a site specific written lice management procedure with waypoints describing set actions to deal with recognised scenarios during the escalation of a sea lice infestation?
16. Do the sea lice levels observed on stocks reflect sea lice count data? If no please detail reasons.

**Containment Inspection**

1. Has the site experienced equipment damage due to predators in the current or previous production cycles?  N
2. Are measures in place to mitigate against the predation experienced on site? (Detail below)  Y

|          |                |  |  |  |  |
|----------|----------------|--|--|--|--|
| Top Nets | Tensioned Nets |  |  |  |  |
|----------|----------------|--|--|--|--|

If other, detail below:

3. Have escape incidents or events been experienced on or in the vicinity of the site since the last FHI inspection?  N  
If Yes proceed with questions 4 – 9. If No skip to question 10
4. Have these been reported to Scottish Ministers?
5. Have these been reported to local DSFB forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
6. Have these been reported to the SSPO and local fisheries trusts forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
7. Were methods (if any) used to recover escapees? If yes give detail
8. If gill nets were deployed was this action agreed with local wild fish interests and was permission given by Scottish Ministers? (Legal, CoGP – 4.4.38, 5.4.18)
9. What action was taken to prevent and minimise the risk of further escapes? (Not covered in code but could be considered under satisfactory measures of the Act)
10. Is the site inspected as satisfactory with regards to containment? If no, please detail reason(s)  Y

# Fish Health Inspectorate visit report

## Summary for information of site operator

|              |          |                |            |
|--------------|----------|----------------|------------|
| Business no: | FB0119   | Date of visit: | 10/12/2025 |
| Site no:     | FS0268   | Site name:     | Tervine    |
| Case no:     | 20250481 | Inspector:     | [REDACTED] |

## Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

## Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

Mortality records were inspected and found to be adequately maintained.

Mortality levels had exceeded the reporting criteria since the last inspection and had been reported to the Fish Health Inspectorate as required.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Directorate were available for inspection.

R04

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

## **Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015**

Medicine records were inspected and found to be adequately maintained.

## **Inspection under the Aquaculture and Fisheries (Scotland) Act 2007**

The site was also inspected in accordance with the Aquaculture and Fisheries (Scotland) Act 2007 with respect to section 5 regarding containment and escapes.

On this occasion the site was found to be satisfactory.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.
