BLISTERMATE™

SEMI-AUTOMATED BLISTER MACHINE

Thermoform or cold form on the same machine.
Form and seal with power and versatility.

The precision engineered BlisterMate™ executes multiple production processes without add-ons. It's a powerful blister packer with precise HMI controls for temperature and dwell time, so you can produce an endless variety of blister features. Save and recall recipes for frequently used processes.

Thermoform, cold form, and seal all in one machine.

Flexibility for All Small Production Runs:

BlisterMate™ is built with ergonomic design and state-of-the-art technology to help you do more. Produce small batches without having to tie up expensive production machinery. You can even roll the BlisterMate™ through a standard office doorway just by folding down its work surface.

- Stability Runs
- R&D Samples
- Marketing Samples
- Medical Devices

Tooling & Services:

All tooling is precision designed and manufactured at our Florida facility, then fully tested on an in-house machine. Pharmaworks is committed to full support. We can provide material blanks or the devices to make your own.

MACHINE SPECIFICATIONS
