Here are some letters and testimonials from folks who have attended my class.

Raymon,

I just wanted to say that your class last week end in Charlottesville blew me away! I have been a Reiki practitioner for years, but your concepts of using intent to heal at a distance are a quantum leap above any hands on methods. I wanted you to know how much I learned. I must have taken 30 pages of notes. I am on the fourth reading of your book. I always get something new out of it. I have been using your checklist to help my family and friends. Your clearing of the many things on the list from me has made me feel completely different. I feel more confident about life and that things will work out well. :-)

Bless you,

Tim

Hi Raymon,

During the seminar at Poplar Grove Dec 5-6, 2009, you taught me how to get to my Medicine Place. You told us to pick someone to work on in our Medicine Place. I chose my boyfriend Scott. Scott had smoked cigarettes for 7+ years and it didn't look like he was going to stop any time soon. But, after putting him in the Medicine Place, Scott hasn't had a cigarette since December 5th. My intent was to ease his mind.

I've had clean, good tasting water for about 4 months. I bought the Energizing Water II CD. Sometimes my water changes back to the way it was originally. But, all I have to do is play the CD, and after I have clean water again.

Thank you for teaching us,

Adrienne

Here is an email received as a result of a phone session with a grandmother, concerning her son and grandson.

Raymon Grace has been working with my family for quite a while and it has made a huge difference in every case.

My adult son has been diagnosed with Bipolar Disorder and was contemplating suicide when his

business went bankrupt and he felt he couldn't get a job. Raymon worked on him and shortly after he called me and said he was no longer suicidal. He had not mentioned to me that he was suicidal,

but Raymon saw it in his brain. He also got exactly the job he wanted. He is as happy and light as I have ever seen him in his life.

My six-year-old grandson was having OCD symptoms. He was asking if he could touch the couch over and over and washing his hands many times a day in connection with the question "Can I touch the couch?" He also wouldn't say "yes" or "no" but answered every question with "maybe." Then he started repeating a sound and my son was concerned about Tourette's syndrome. My son made an appointment with the Doctor. After Raymon worked on him, his symptoms started to disappear. By the time he got to the doctor he was fine. He's doing great still.

Every person Raymon has worked on in my family has shown improvement to a marked degree."

I have traveled the world for the past 26 years exploring healing modalities from many cultures... (India, Bali, Thailand, Cambodia, Little Tibet, South America, S. Africa, & Kashmir)... Never did I ever think in my wildest dreams that a mountain man from the hills of Virginia would present to me the most authentic healing modality I have encountered to date! ~~~~ Paul
