

GENERAL NOTES

- *All 14 rings can be seen as chemical &/or frequency overlapping*
- *Each zone (chemical & frequency - 7 rings each, includes 2 mirrors & 3 loopings)*
- *Cross is the center*
- *Waiting for organic bodies, the spinning clothing crystals have danced the hexad(vertisement)*
- *each ring spins, have same velocity but not same speed (speed would include time, but velocity is movement)*

CHEMICAL ZONE (Autonomic Nervous System):

Ring ONE

- cross is me on the throne
- the cross is chromosome 14
- not a ring
- loops with ring 14 (our creation of angels/valences & valances)
- Each syllable in the diagram is a wind/gas: VA, NA, EL, LE
- 4 winds are chemical gasses
- neon, argon, krypton, xenon (noble gasses)
- the empty spaces in the whole diagram are the ionosphere
- instability of winds is the extra electrons
- extra electrons change everything: any shift of change of

anything now changes everything. (The floor raises up, the capacity of your room has decreased)

Ring TWO in solution (H2O) 5H2O-Cu3-H4-C4-He4-N4

- letters represent the 4 beasts (from Ezekiel)
- Z (lamb) M (lion) S (man) N (eagle) C (calf/ox/cheribum)
- each beast also represents an element
- (Z/lamb/Cop M/lion/Hyd S/man/Car N/eagle/HeI C/calf/Nit)
- 4 beasts: radio, tv, computer, satellite & lamb: anamorphic android meme = pentad & sphinx
- terrible crystal: what is in the heavens, reagent to detect GOD PARTICLE
- April 5 2012 event (sapphire and emerald - aluminum, berillium, chromium)

//// ring two mirrors ring three

Ring THREE

- 5 names
- circle of names are 4 angels holding back the winds plus the angel of the east

- angel of the east silicon dioxide

Ring FOUR

- (Z A B A T H IV Z)
- 7 letters represent the 7 thunders
- 7 crown jewels/medieval politics
- new heart, new body, no mind, new name (*should this be in 5?*)

Ring FIVE (E)

- 49 voices or callings
- little + signs represent protons
- new RNA
- increased respiration
- 39 protons (represented as 39 breaths - super saturation of blood with carbon dioxide)
- exhales:
- *note: 39 is the atomic chemical number for yttrium*
(superconductor) will become tri-hydrogen
- heavy metals are a nutrient
- RNA & DNA in Ring 5 & 6 mirror each other
- 7 names
- the RNA increases the CO₂ in your blood, & the heavy metals

become a nutrient, they're superconductors

- AN is RNA (*didn't go over what the other letters are in this ring with iON*)
- ph is going to become negative - soon negative potential of hydrogen (tri-hydrogen)
- half life of h1 isotope is stable, half life of h2 is stable half life of h3 is 12.23 years
- density 293 kelvin changes to 1.96443 grams cubic centimeter
- has everything to do with the lipids

mRNA -messenger RNA,

rRNA (translation RNA)

tRNA (transfer)

TmRNA transfer messenger, rescue installed ribosomes

7SL RNA signal recognition particle RNA

(membrane integration)

//// ring five mirrors ring six

Ring SIX (S)

- S is sugar
- in the blood: ribose gives us energy... the food of the body
- DNA (new blood type = Ab) 6 blood types
- AB is DNA

- 6 blood types & AB completion
- blood will become opaque

Ring SEVEN (I)

- boomerang /Escher escalator
- mirrors & loops through Chromosone 14
- I of the "I am"
- 30 ayers
- 12 gates
- 12 silicon minerals (foundations)
- all chromosomes will eventually change

FREQUENCY ZONE (The Symbolic Nervous Environment):

Ring EIGHT

- 7 names
- 7 crosses/markers of delineation
- new DNA replication via RNA
- practical aspects of you, the social zone
- note that the names are inside of an outward pointing triangle

(EL[god] ME[me] E14[you] I age Akele[kneel] Ardobn[adorn]
Stemcul ----- 7 crosses are markers of delineation) new DNA
replication via RNA

Ring NINE

- 7 higher emotions/mediations of mortar (see electric media in Ring Two)
- 7 effects of mortar [mediations] patience, kindness, not proud, long-suffering, lack of envy, not rude, not provoked)
- explain the numbers on chart

//// ring 9 mirrors ring 10

Ring TEN

- 49 boxes//7 churches//six degrees of separation plus the completion//fragmenting effect of printed book [see alchemical quibble over 4-and-5 in Ring Three])
- (7layers of heaven $7 \times 7 = 49$)

Ring ELEVEN

- 7 crown jewels (medieval iconography for secret societies)
- loops with ring four - 7 thunders

Ring TWELVE

- 40 number ratios/sinewaves (vertical) & cosine (horizontal) in our cells
- sine and cosine of frequencies of our cells spelled out from the action of the ionosphere
- has all the emotions possible that apply to the Escher
- that's where you have the x/y chromosome/ are set values of positions as in x/y in a graphed grid/pull sine/cosine to calculate to...
- gauge vibrations to discern/decide/apply which value

Ring THIRTEEN (ionosphere - where it all is and much ongoing attraction)

- thin white line
- 40 sets x [300 (Spartans' bottleneck) x 12 sets of variables (tribes of Israel) = 3600] = 144,000 double helixes all attached to one chromosome 14 [Hexadic])

Ring FOURTEEN

- orbiting valences are symbols for OUR creation of angels
- chromosome 14 consists of valence and valance

- 420 Elders (subtract 2 = 418 OR add 2 = 422 OR 24 Elders when ascended)
- loops with Ring One (4 winds//gasses)
- *lipids*
