SHOW RING CODE OF ETHICS

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the various dairy breed associations to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, the Purebred Dairy Cattle Association, the Iowa PDCC and the Iowa State Fair believe that it is in the best interest of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring.

It is recognized there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented in the show ring in a natural and normal condition. Conversely, the following practices or procedures are considered unacceptable in the show ring of cattle.

- The following practices or procedures are considered unacceptable and defined as being fraudulent and/or unethical in the show ring of registered cattle:
 - Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
 - Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or other substance to artificially improve the conformation.
 - Surgery or insertion of foreign matter under the skin, performed to change the natural contour of appearance of the animal's body, though not to preclude practices required or involved in normal management.
 - Criticizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.
- Setting teats or manipulating a teat or alter its normal position such as to unnaturally hold it plumb or to alter its length is unacceptable and shall be given slight to serious discrimination by the judge.
- The following practices and procedures are considered to detract from the image of the show ring when carried to excess and will be given slight to serious discrimination in placing within class:
 - Excessive manipulation of hair.
 - Use of artificial hair except for false switches.
 - Unsportsmanlike conduct on the part of show person.
- The following practices should be encouraged to enhance the image of the show:
 - Establish uniform dress code for exhibitors in the show ring.
 - Recognize good herdsmanship and exhibits in the barn.

In keeping with the basic philosophy of the PDCA, ethics are an individual responsibility of the owner of each animal shown. **Violation of the Show Ring Code of Ethics as determined by Fair officials will result in disqualification of the animal/exhibitor. The exhibitor may also be banned from showing in future years.**

EXHIBITOR'S MEETING

A meeting of all dairy cattle exhibitors will take place at 7:30 p.m. on Thursday, August 10 in the Cattle Barn Media Center. The purpose of this meeting is to give exhibitors a chance to share suggestions with the Superintendent. **JUDGE RECOMMENDATIONS for the next year's State Fair will also take place at this meeting.**

DAIRY PARLOR

A "Dairy Parlor" will be in operation during the Iowa State Fair. Exhibitors are strongly encouraged to use the Dairy Parlor.

In order to market milk, exhibitors must use the milking facility and adhere to the milking schedule set up by the Dairy Cattle Superintendent.

Do not offer milk for sale from cows treated with any antibiotics for a period of at least 72 hours after the last treatment. Random sampling of cattle will occur to check for antibiotic residues. If a tank of milk is found to be positive and a sample is found to be positive, that exhibitor will pay assessment for contaminated load of milk along with having their premiums withheld and all subsequent milk from that exhibitor's cattle will need to be dumped. These procedures are in place to help ensure safe and clean sale of milk.

The parlor will open at 5:00 a.m. on Wednesday, August 9 for the first official milking.
