Return Reference	Explanation
Part X, Line 2	The Organization follows the provisions of Financial Accounting Standards Board Accounting Standards Codification (ASC) which requires an assessment of the Organization's exposure to income taxes at the entity level as a result of uncertain tax positions taken in current and previously-filed tax returns. Examples of tax positions taken at the entity level include continuing qualification as a tax-exempt organization and whether there are any taxable unrelated business income activities conducted. Any tax benefits associated with uncertain tax positions that are in excess of a realization threshold must be recorded as a liability for unrecognized tax benefits in the financial statements, along with any associated interest and penalties. Presently, management believes that it is more likely than not that its tax positions will be sustained upon examination, including any appeals and litigation, and therefore believes that the Organization has no exposure to income taxes from uncertain tax positions. Tax years beginning after June 30, 2013 are open to examination.
