We provide a low adult to child ratio (1:7) to ensure that we can focus on the social and emotional, as well as cognitive and physical, development of the children. The high-quality curriculum mitigates the risks to development and promotes school readiness to help the children reach their potential and be successful in school and later life. It is expected that poor children enter kindergarten at a 3- or 4-year development level. The overall growth across all domains averaged 84.4% with the post-test, a drastic increase from 68.6% measured from the pre-test. Children are considered proficient if they are proficient in 80% of items within the category.
