Part X FIN48 Footnote	On January 1, 2009, the Organization adopted new accounting guidance concerning provisions for uncertain income tax positions This clarified the accounting for income taxes by prescribing a minimum probability threshold that an uncertain tax position must meet before a financial statement benefit is recognized The minimum threshold is defined as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of position The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement There was no effect of the adoption of this guidance The Organization recognizes accrued interest and penalties associated with uncertain tax position, if any, as part of the income tax provision There were no income tax related interest and penalties recorded for the years ended December 31, 2014 and 2015 The income tax returns of the Organization are subject to examination by the IRS and other various taxing authorities, generally for three years after they were filed
