Pt X, Line 2	<p>The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the Organization and various positions related to the potential sources of unrelated business taxable income ("UBIT"). The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. There are no unrecognized tax benefits identified or recorded as liabilities for the year ended December 31, 2017. The Organization is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. The Organization's information returns for 2016, 2015, and 2014 are subject to examination by the respective taxing authorities generally for three years after they were filed.</p>
