Return Reference	Explanation
Part X, Line 2	Accounting for uncertainty in income taxes - The Association accounts for the effect of any uncertain tax positions based on a "more likely than not" threshold to the recognition of the tax positions being sustained based on the technical merits of the positions under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a "cumulative probability assessment" that aggregates the estimated tax liability for all uncertain tax positions. It is Management's belief that the Association does not hold any uncertain tax positions. The association's returns are subject to examination by the IRS generally for three years after they were filed.
