Part X FIN48 Footnote	The Company follows the Accounting for Uncertainty in Income Taxes topic of FASB Accounting Standards Codification. The Standards require the recognition and measurement of uncertainty in tax positions taken or expected to be taken by the Company in the preparation of its income tax returns. The Company determines whether it is more likely than not that a certain tax position is less likely than not to be sustained, an estimate of the potential effect is recognized in the financial statement and the uncertain tax position is required to be disclosed. Per Managements' evaluation including all prior tax years subject to examination it was determined that no material adjustments were required in the financial statements for tax positions less likely than not to be sustained upon examination by a taxing authority.
