Form and Line Reference	Explanation
Carson Valley Medical Center	<p>Part V, Section B, Line 5: In 2019, A Community Health Needs Assessment was conducted on behalf of Carson Valley Medical Center by Professional Research Consultants, Inc. (PRC). Methodology: This assessment incorporates data from both quantitative and qualitative sources. Quantitative data input includes secondary research (vital statistics and other existing health related data) that allows for comparison to benchmark data at the state and national levels. Qualitative data input includes primary research gathered through the Online Key Informant Survey. The study area for this effort is Douglas County, Nevada. This community definition was determined based on the areas of residence of most recent patients of Carson Valley Medical Center. To solicit input from key informants, those individuals who have a broad interest in the health of the community, an Online Key Informant Survey was implemented as part of this process. A list of recommended participants was provided by Carson Valley Medical Center; this list included names and contact information for physicians, public health representatives, other health professionals, social service providers, and a variety of other community leaders. Potential participants were chosen because of their ability to identify primary concerns of the populations with whom they work, as well as of the community overall. Key informants were contacted by email, introducing the purpose of the survey and providing a link to take the survey online; reminder emails were sent as needed to increase participation. In all, 33 community stakeholders took part in the Online Key Informant Survey. Through this process, input was gathered from several individuals whose organizations work with low-income, minority, or other medically underserved populations. In the online survey, key informants were asked to rate the degree to which various health issues are a problem in their own community. Follow-up questions asked them to describe why they identify problem areas as such, and how these might better be addressed. Results of their ratings, as well as their verbatim comments, are included throughout this report as they relate to the various other data presented. NOTE: The Online Key Informant Survey was designed to gather input regarding participants' opinions and perceptions of the health needs of the residents in the area. Thus, these findings are based on perceptions, not facts.</p>
Carson Valley Medical Center	<p>Part V, Section B, Line 6b: Final participation included representatives of the organizations: Carson Valley Medical Center/ Minden Family Medicine, Carson Valley Chamber of Commerce, Douglas County School District, Douglas County Sheriff's Office, DP Consulting, East Fork Fire Protection District, Me for Incredible Youth (MEFIYI), Minden Family Medicine, Rural Health Clinic (CVMC), REMSA/Care Flight, Renown Health, Senior Care, Sierra Nevada ENT and Hearing Aid Center, Tahoe Fracture and Orthopedics, The RecordCourier Newspaper.</p>

Carson Valley Medical Center	<p>Part V, Section B, Line 11: For the 2019 Community Health Needs Assessment - the following were the community needs identified and addressed in the 2019 - 2020 implementation plan as well as actions that CVMC has taken to address these areas. The Areas of Opportunity were determined after consideration of various criteria, including: standing in comparison with benchmark data; the preponderance of significant findings within topic areas; the magnitude of the issue in terms of the number of persons affected; and the potential health impact of a given issue. These also take into account those issues of greatest concern to the community stakeholders (key informants) giving input to this process.</p> <p>1.) Access to Health Services - lack of health insurance for children and adults and the primary care physician ratio</p> <p>2.) Heart Disease &amp; Stroke - high blood cholesterol</p> <p>3.) Infant Health &amp; Family Planning - low-weight births</p> <p>4.) Injury &amp; Violence - unintentional injury deaths</p> <p>5.) Mental Health - suicide deaths *ranked as a top concern in the Online Key Informant Survey</p> <p>6.) Nutrition, Physical Activity &amp; Weight - low food access *ranked as a top concern in the Online Key Informant Survey</p> <p>7.) Substance Abuse - excessive drinking *ranked as a top concern in the Online Key Informant Survey</p> <p>8.) Tobacco Use - cigarette smoking prevalence</p> <p>CVMC did not address infant health and family planning as that is covered in our community by the community health department, who we work closely with. In 2019, for substance abuse and tobacco use, CVMC continued to partner and support the area's non-profit whose mission is substance abuse and tobacco use - the Partnership of Community Resources. We host a fundraiser for them annually and our leadership sits on their governing board to ensure full support of their efforts. For access to healthcare, in 2019 we extended primary care and physical therapy hours; as well as supporting and partnering with DART the regional transportation service to ensure patients can get to their medical appointments. In 2019 CVMC also added 2 new primary care providers. For mental health services, CVMC opened the area's first behavioral health clinic to serve the community. We offer intensive individual and group outpatient sessions to meet this community need. To address nutrition and obesity, CVMC hired a dietitian intern in 2019 to offer more nutritional seminars and outreach services. To address heart disease and stroke, CVMC purchased a new CT machine in 2019 that enabled us to perform cardiac calcium screenings for our community.</p>
