Part I Summary

1 Briefly describe the organization's mission or most significant activities
Buildings are more stable and better able to withstand bad weather when they have a strong foundation. The same can be said about well-being. People and communities thrive when they have the social relationships, resources and opportunities that build strong well-being. But when those materials are not available and there is not a solid foundation for well-being, people and communities may have difficulty weathering life's storms. When well-being is unstable, social stresses like graduating from school during a recession or having an aging parent who needs care can be catastrophic. While people with lots of support can weather the storm, people without enough support may struggle to do so. CDCAC provides services and connects people to resources that help them better weather the storm.
