## TOP EVENTS

### Ice Cream Truck Social

Students enjoyed a sweet summer break with complimentary treats during our on-campus Ice Cream Truck Day.

### Juneteenth Celebration

The AIMS community came together to honor Juneteenth with music, reflection, and a celebration of Black history and freedom.

### Career Workshop

A full-day career workshop provided students with hands-on training in résumé building, interview skills, and job readiness.

## Graduate Spotlight

Our Student Spotlight for Summer 2025 shines on **Justin Woods**, a true example of resilience, passion, and purpose in healthcare. A graduate of the Cardiovascular Technologist program, Justin balanced full-time studies, overnight shifts, and wedding planning with unwavering determination. After completing his internship at Monmouth Medical Center, he passed the RCS exam and accepted a full-time role as an Echocardiography Technician. Justin continues to inspire, with plans to pursue vascular certification and a message to future students: never give up.

## Behind the Scenes at AIMS: Where Learning Meets Real-World Experience

This summer, AIMS students have been diving into hands-on learning like never before. From real-time simulations in patient care labs to interactive workshops on medical ethics and teamwork, the focus remains on turning knowledge into action. Surgical Technology and Sterile Processing students worked alongside instructors in lab settings to refine their instrument handling and OR prep skills, while Diagnostic Cardiac Sonography students participated in advanced scanning sessions using high-tech ultrasound equipment. These experiences continue to show how AIMS bridges the gap between education and the fast-paced demands of the healthcare world.

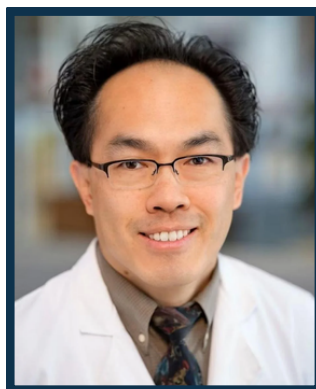

## Congrats 2025 Graduates!

A huge congratulations to all of our recent graduates! Your hard work, dedication, and resilience have brought you to this incredible milestone, and we couldn't be prouder. As you move forward into your careers, know that you're making a difference in the lives of others and representing the very best of AIMS Education.

### Insights from Visiting Experts

In June and July, AIMS Neurodiagnostic Technology students received virtual guest lectures from two renowned doctors in their field: **Dr. Faisal Jahangiri** and **Dr. Stephen Wong**. Here are some highlights from their insightful lectures! You can read the full articles about their lectures on the links provided.

**Dr. Stephen Wong**

[Read Article Here](#)

**Dr. Wong's** session focused on "Pattern Recognition of EEG Epochs", where he provided an exploration of epileptic dysfunction zones, aura localization, seizure/aura symptomatology, and the distinctions between seizures and epilepsy.

Throughout his lecture, **Dr. Jahangiri** provided guidance on Somatosensory Evoked Potentials (SSEPs) and proper electrode placement. He also provided the students with real-world examples from the thousands of monitored procedures he's supervised across global hospitals.

## Summer on the Lawn Event

Students, faculty, and staff enjoyed incredible company, music, and food at AIMS Education's annual "Summer on the Lawn" event!

## Summer 2025 Peer Mentorship Program Spotlight

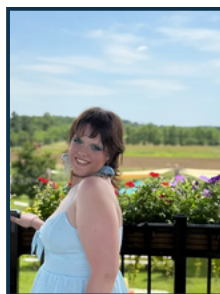

Mentor:  
Emma  
Rahor

Mentee:  
Eliane  
Outerbridge

At AIMS, students are never alone in their academic journey. **Emma Rahor** (mentor) and **Eliane Outerbridge** (mentee) are a perfect example of how the AIMS Peer Mentorship program provides students with guidance, support, and encouragement. Both students talk about how supported they feel and how easy it is to lean on each other amongst the stress of college. Learn more by watching their video on the [AIMS Youtube Channel!](#)

## AIMS Summer 2025 Graduate Spotlights

[Casey Wasserman-  
Graduate Spotlight |  
AIMS Education](#)

**Casey Wasserman** began her college journey pursuing nursing before discovering her passion for sonography. At AIMS, she gained hands-on skills through supportive faculty, collaborative classmates, and immersive internships that confirmed her abilities in the field. Now a Registered [Diagnostic Medical Sonographer](#) and Vascular Technologist through ARDMS, Casey works full-time as a neurovascular technician at Capital Health RMC.

[Emily Fowler-  
Graduate Spotlight |  
AIMS Education](#)

**Emily Fowler** holds a bachelor's degree in public health and previously worked in healthcare administration and hospitality before deciding to take a more hands-on role in patient safety as a [Sterile Processing Technician](#). At AIMS, she built a strong foundation in surgical instruments, through expert instruction, and a tour of a real sterile processing department. After completing her internship at JFK University Medical Center, Emily was hired full-time in the same department.

## Congrats 2025 Cardiovascular Case Study Competition Winners!

Congratulations to the first and second place winners of the 2025 Cardiovascular Case Study Competition! Our first-place team (pictured on the right) delivered an insightful presentation on an aortic dissection case study, while the second-place team (pictured on the left) educated their peers on hypoplastic left heart syndrome. Both groups—and all students who participated—exemplify the creativity, knowledge, and dedication that AIMS Education students demonstrate in and beyond the classroom every day.

## AIMS Connecting with Future Health Professionals

Over the past month, AIMS Education has been actively engaging with prospective students at local career fairs and during our recent campus open house. Our team was proud to share information about our health sciences programs, answer questions, and connect with individuals eager to pursue careers in healthcare. These events provide a valuable opportunity to inspire and inform future students about the pathways available at AIMS Education.
