

A Message from the Dean, Chirag Patel

Dear AIMS Community,

As we come to the close of another remarkable year at AIMS Education, I am proud to reflect on the progress, achievements, and milestones that have shaped our institution and strengthened our commitment to student success.

This year, we expanded our academic offerings, enhanced our simulation-based training, and continued investing in advanced technologies to ensure our students are fully prepared for today's evolving healthcare workforce. From the launch of new continuing education programs to the integration of innovative equipment—such as our latest simulation tools—our focus has remained on delivering high-quality, hands-on learning that reflects real-world clinical environments.

Our students continue to inspire us with their dedication and resilience. Whether in the classroom, the lab, or out on clinical rotations, they have demonstrated professionalism, compassion, and a genuine passion for patient care. We are especially proud of the accomplishments of our graduates, many of whom are now contributing meaningfully to hospitals, clinics, and healthcare facilities across the region. This year, we also strengthened our partnerships with clinical affiliates, hosted engaging campus events, and expanded our support services to ensure every student has access to the resources they need to thrive. These efforts would not be possible without the unwavering dedication of our trustees, faculty and staff, whose commitment to excellence continues to drive our mission forward.

As we prepare for the year ahead, I am excited for the opportunities that await us, new programs, new collaborations, and continued advancement in the training we provide. Together, we will remain focused on our purpose: empowering students with the skills, knowledge, and confidence to succeed in allied health careers.

Thank you to our students, alumni, faculty, staff, board members, and associates for being an essential part of the AIMS Education community. Your support and dedication make our institution stronger each year.

Wishing everyone a successful, healthy, and fulfilling year ahead.

Warm regards,
Chirag Patel
Dean, AIMS Education

A Moment from Our Alumni Event

This special photo from our recent Alumni Event beautifully captures the spirit of community and camaraderie that makes AIMS Education so unique. Even with just one snapshot, the pride, enthusiasm, and connection among our graduates are evident, reflecting the lasting bonds they have with each other and the institution. A heartfelt thank you goes out to everyone who attended and contributed to making the event so memorable. For those who couldn't join us this time, we look forward to welcoming you at future gatherings and continuing to build this vibrant alumni community.

MRI Students Explore Advanced Imaging

MRI Technology students from AIMS Education explored advanced imaging technologies and clinical workflows at Jersey Shore University Medical Center. They observed X-ray, CT, BMD, MRI, and innovative systems like the ZAP-X Radiosurgery platform and Brain-Only Silent MRI, while learning from experienced technologists about daily responsibilities and career paths. This hands-on experience highlights AIMS Education's commitment to bridging classroom learning with practical training for future MRI professionals.

TOP EVENTS

Summer On Lawn

Summer on the Lawn brought our students and staff together for a fun, relaxed afternoon filled with sunshine, connection, and community.

Hispanic Heritage Month

We honored Hispanic Heritage Month with a celebration that recognized the rich culture, history, and contributions of the Hispanic community on our campus.

Halloween Celebration

Our Halloween celebration brought festive energy to campus as students and staff enjoyed costumes, treats, and a fun seasonal spirit.

CVT Students Experience Hands-On Training at Linda Grunin Simulation Lab

On April 9, 2025, Cardiovascular Technology students participated in an immersive field trip to the Linda Grunin Simulation Lab, where they received hands-on echocardiography training using advanced simulation technology. Led by Ekta Patel from Monmouth Medical Center, the session offered personalized guidance and an opportunity to practice real-world scanning techniques. Students also toured the facility's specialty simulation suites, gaining a deeper understanding of interdisciplinary healthcare environments. This experience strengthened their skills and reflected AIMS Education's commitment to dynamic, real-world learning opportunities.

AIMS Celebrates Summer on the Lawn

AIMS Education brought the campus to life on August 6, 2025, with its annual Summer on the Lawn celebration, a vibrant gathering designed to bring students, faculty, and staff together in the best way possible. The campus lawn transformed into a lively festival space filled with upbeat music, friendly competition, lawn games, and plenty of laughter. Guests enjoyed a colorful Mexican food spread, fun giveaways, and opportunities to unwind between classes and clinicals. The warm weather, energetic atmosphere, and sense of togetherness made the event more than just an afternoon outdoors, it became a standout summer memory that highlighted the strong community spirit at AIMS.

AIMS Career Fair Success

Our recent Career Fair brought together students, graduates, and leading healthcare employers for a valuable day of networking and opportunity. Attendees connected directly with recruiters, learned about open positions, and explored pathways to begin or advance their careers. The event created an encouraging space for meaningful conversations and helped many students take confident steps toward their professional goals. We are grateful to all the employers and participants who contributed to a productive and inspiring day.

Introducing Our New CVIS Program

This year, AIMS Education proudly introduced the Cardiovascular Invasive Specialist (CVIS) program, expanding our commitment to preparing students for in-demand careers in advanced cardiovascular care. The launch of this program represents an exciting step forward as we continue to grow our offerings and respond to the evolving needs of the healthcare industry.

Guest Lecture Inspires Our Sterile Processing Students

On July 24, 2025, the Sterile Processing Technician students at AIMS Education had the privilege of hearing from guest speaker Anthony Dunaway, whose insights into professional compliance, leadership, and industry expectations brought fresh perspective to the classroom. His experience helping bridge practical knowledge and patient-focused thinking empowered our students and reinforced the importance of behind-the-scenes excellence in healthcare. We thank Anthony for taking the time to engage with our future sterile processing technicians and inspire them toward their next steps.

ABHES Features AIMS Education in Fall 2025 Newsletter

AIMS Education was proudly highlighted in the Fall 2025 edition of ABHES' annual newsletter, *The Advantage*, which featured a two-page article recognizing our Cardiovascular Case Study Showcase, also known as the Cardiovascular Case Study Competition. The feature celebrated this innovative learning event for students in the Cardiovascular Technology and Diagnostic Cardiac Sonography programs, emphasizing its focus on clinical reasoning, collaboration, and applied knowledge. This recognition reflects AIMS' commitment to providing meaningful, real-world learning experiences that prepare students for success in today's healthcare environment.

Campus Pop-Up Tables Engage Students

This semester, AIMS Education hosted pop-up tables on campus to provide students with quick access to important resources. Our Financial Aid Pop-Up Table offered guidance and support to help students navigate tuition and funding options, while the Talk Campus Table gave students a chance to ask questions, share feedback, and learn about campus services. These pop-ups created an interactive, convenient way for students to get the information they needed and stay connected with the AIMS community.

Radiology Field Trip for DMS Students

Students from the Diagnostic Medical Sonography program participated in an enriching field trip to Jersey Shore University Medical Center, where they toured active imaging departments, interacted with technologists, and gained firsthand exposure to CT, X-ray, MRI, and other radiology specialties. Guided by radiology professionals, the group explored advanced technologies, including the Exablate Neuro MRI-guided system, and learned about career pathways, workplace safety, and daily responsibilities in the field. This experience offered valuable insight into real-world radiology practice and reinforced AIMS Education's commitment to providing meaningful, hands-on learning opportunities for future healthcare professionals.

Holiday Cheer at AIMS

AIMS Education celebrated the holiday season with a festive gathering exclusively for faculty and staff. The event featured holiday decorations, music, and seasonal treats, creating a warm and cheerful atmosphere for everyone to enjoy. It was a wonderful opportunity to connect, relax, and share in the joy of the season, making it a memorable celebration for all who attended.
