250 ML

SALICYLIC SOAP

Claims: Gentle and superficial renewal, preparation of the skin for various clinical treatments.

A restoring, therapeutic, antiseptic, SLS-free liquid soap that provides solutions to various skin problems which require gentle exfoliation in hair follicles and superficial renewal of the stratum corneum daily.

Active Ingredients: Salicylic acid, citric acid

Potential patient:

- Patient who tends to develop prickly heat/folliculitis
- Inflammation of hair follicles in various skin parts
- Active acne in the back, shoulders, buttocks, and chest

250 ML

PURE TEA TREE SOAP

Claims: Cleanses facial skin, Anti-septic, anti-bacterial, moisturizing, soothing, rejuvenating. Effective as a local treatment for acute skin infections, burns, eczema, and viral warts

Active ingredients: Citric acid, tea tree oil

Product description:

- A soothing soap for all skin types
- Moisturizing and leaves a velvety touch
- Enriched with tea tree extract and has a refreshing scent

50 ML

PHYTO PEEL

Phytic acid exfoliator

Claims: Renewal, illumination, treatment of dark skin.

Potential treatment: Controlled exfoliation treatment for skin clarification

Active ingredients: Phytic acid, Lactic acid, glycolic acid.

Explanation:

- A solution composed of alpha hydroxy acids and clarifying substances used in a variety of protocols
- Intended for skin illumination and renewal

50 ML

FIX PURE PEEL

Keratolytic exfoliator

Claims: Powerful exfoliator and moisturizer

Potential treatment: Patients with comedonal acne / sebum imbalance / acne scars / dilated pores / hemosiderin staining

Active ingredients: Lactic acid, salicylic acid, urea (exfoliating concentration)

Explanation:

- Alpha and beta hydroxy acid solution
- Made for professional use in a variety of clinical treatments

Cosmetician product line

50 ML

GLYCO PURE ACTIVE

Glycolic acid exfoliator

Claims: Powerful exfoliating treatment for skin renewal

Potential treatment: Powerful renewal for the improvement of skin texture, blurring of wrinkles, clarifying of age spots, and refinement of post acne scars (immediately after recovery)

Active ingredients: Glycolic acid, lactic acid, salicylic acid, phytic acid, and urea

Explanation:

- Alpha and beta hydroxy acid solution
- High concentration of 36% active ingredients
- In-depth renewal of the skin

250 ML

SOFT SKIN CARE

Softening cream

Claims: Softens the corneal layer and the comedonal mass in the hair follicles.

Active ingredients: Unsaturated Fatty acids, urea.

Potential treatment: Preparing the skin for drainage of comedones and subcutaneous fats.

Explanation:

- A revolutionary softening cream that significantly alleviates the deep cleansing phase without the need for additional softeners.
- Does not contain irritating kerolite materials
- Suitable for all skin types

QUEEN MELANIE

Retinol based serum for skin renewal

Claims: Powerful exfoliation for reinforcement of skin renewal processes

Potential treatment: Patients with mature skin characterized by age signs, wrinkles, an uneven skin tone, senile skin spots, decreased tone, and lack of vitality. Patients suffering from melasma (hormonal hyperpigmentation) who need significant exfoliation to strengthen treatment results

Active ingredients: Bakuchiol, Retinol acetate, Mandelic acid

Explanation:

- An exfoliating serum designated for professional use only which is the result of prolonged development accompanied by a series of dermatologic tests which amplify skin renewal processes substantially and safely

50 ML

Notes: Prohibited for use on pregnant and breastfeeding women. Use of the serum requires preparatory home treatment

COOL GEL MASSAGE

250 ML

Active Massage Gel

Claims: A massaging, moisturizing, and soothing, complementary gel to the Exfo Powder

Active ingredients: Menthol, Pentanol, Citric acid

Potential treatment: General facial treatments, deep cleansing, beauty treatments, exfoliating powder treatments, gel-based moisturizing mask

Explanation:

- Oil-free therapeutic massage gel which is integrated in a variety of different treatment stages
- Rich in organic substances for soothing and hydrating the skin

50 GM

MULTI-NEEDS EXFO POWDER

Enzymatic powder

Claims: Gentle to moderate deep antiseptic treatment for inflammatory acne.

Active ingredients: Enzymes, salicylic acid, Azalea acid, Marine sponge

Potential treatment: A targeted exfoliating treatment for blurring and clarifying post acne spots, the refinement of scars, and inflammatory acne control.

Explanation:

- Mechanical exfoliation which uses kerolite enzyme technology and ginger seed shell particles, resulting in inflammation to renew the skin from its depth
- Disperses pigment
- Improves the appearance of post-acne scars

MULTI-NEEDS SKIN RELAXER SPRAY

Moisturizing and soothing spray

Claims: Moisturizes, disinfects, and soothes the skin after acute stimulation. May be integrated in a variety of treatment protocols.

Active ingredients: Pentanol - Vitamin B 5, Allantoin, White nocturnal plant

Potential treatment: After draining comedones, hair removal with wax or beams, mesotherapy, epilation, and all exfoliation treatments, and before applying masks. Incorporated into the eye care protocol, during epilation.

Explanation:

- A powerful therapeutic spray that contains moisturizers, nutrients, antioxidants, amino acids, restorative materials and vitamins
- Powerfully soothes and cools, provides skin cell protection and essential moisture

250 ML

QUEEN VICTORIA MASK

Intensive firming mask

Claims: A massaging, renewing, and heating mask that completes the final stages of cosmetic treatment for tired skin affected by environmental damage or by exfoliation treatments which damage the integrity of the corneum stratum.

Active ingredients: Moisture growth factors, Oligo peptide that improves moisture instantly, Antioxidant Complex

Potential patient:

- Rich in NMF ingredients and fatty acids
- Repairs the composition of the intracellular material using patented components that lead to powerful stimulation that contributes to the activation of fibroblast cells in the dermis
- A chain of powerful processes that will continue with the maintenance of home care products
- Skin remains with a vital, shiny and fresh look

100 ML

QUEEN ELIZABETH MASK

Clarifying, moisturizing, and anti-oxidant mask

100 ML

Claims: A clarifying mask rich in fatty acids and antioxidants with active concentrations. Leads to a powerful clarifying and soothing effect and blurs signs of aging. The mask has a strong citrus scent (no perfume). Serves as a "strengthening player" for the treatment of skin spots.

Active ingredients: vitamins C, Kojic Acid

Potential patient:

- The mask is used at the end of a cosmetic treatment.
- Leads to a powerful clarifying and soothing effect and blurs signs of aging

QUEEN SOPHIA MASK

Balancing treatment mask for problematic skin

100 ML

Claims: An active therapeutic mask for problematic skin prone to inflammatory acne and comedones. Provides a powerful treatment for bacterial infection in a single application.

Active ingredients: Sulfur, Salicylic acid, Azalea acid, Eucalyptus oil

Potential patient:

- Provides a powerful treatment for bacterial infection in a single application
- Contributes to the decomposition of keratin mass and sebum in hair follicles and pores
- Prevents the appearance of acne lesions after clinical treatment
- Its antibacterial and anti-inflammatory composition will enhance the treatment of acne prone skin at various levels of severity

Cosmetician product line

SKIN RELAXER PEEL OFF MASK

Green tea and seaweed mask - relaxer

Claims: Cooling, soothing, and moisturizing

Active ingredients: Green Tea Polyphenols, Herbal Complex Containing Antioxidants, Elegant algae

Potential treatment: Completes deep cleansing treatments, exfoliation treatments

Explanation:

- The alginate mask provides a cooling and soothing sensation
- Contributes to skin moisture and completes the cosmetic treatment.
- Applied over moisturizers and moisturizing masks at final treatment stages

150 ML

SKIN RELAXER MASK

Soothing mask

Claims: Effectively soothes irritated and inflamed skin

Active ingredients: Camphor Oil, calamine powder, Zinc (zinc oxide), Pentanol, Calendula, Shea butter

Potential treatment: All clinical treatments that require soothing, relaxation, and restoration of the stratum corneum

Explanation: Multipurpose soothing cream which supplements any protocol at the end of the treatment. Leaves a protective layer on the skin, exposed to the environment after treatment. Moisturizes, restores and reduces redness. May be used as home treatment for different skin problems: Extreme dryness, cuts, seborrhea, psoriasis, burns, acne, etc.

SALICYLIC SOAP

Salicylic acid soap

Claims: Gentle and superficial renewal, preparation of the skin for various clinical treatments.

A restoring, therapeutic, antiseptic, SLS-free soap that provides solutions to various skin problems which require gentle exfoliation in hair follicles and superficial renewal of the stratum corneum on a daily basis.

Active Ingredients: Salicylic acid, citric acid

Potential patient:

- Patient who tends to develop prickly heat/folliculitis
- Inflammation of hair follicles in various skin parts
- Active acne in the back, shoulders, buttocks and chest

30 ML

ALPHA BETA CREAM

Skin renovation and balancing

Claims: Powerful renews skin texture, restores the balance of sebum secretion

Active ingredients: Glycolic acid, Glycolic acid, Azelaic acid, Salicylic acid, Urea

Potential treatment: Gentle exfoliation, disinfection after drainage, targeted treatment of inflammatory acne

Explanation:

- An active cream that helps balancing sebum secretion and renews problematic oily skin
- Significantly facilitates the removal of comedones during clinical treatments
- Greatly contributes to the regeneration of tissue damaged by acne
- Improves skin texture, and blurs the appearance of scars and hemosiderin stains

AZO CREAM

Balancing and restoring cream for problematic skin

Claims: Balances the functions of the sebaceous glands and keratinocytes

Potential patient: Patients prone to hormonal imbalance characterized by inflammatory acne - papules, pustules, cysts, and oily seborrhea / seborrhea / psoriasis

Active ingredients: Azalea, Urea, salicylic acid

Explanation:

- Balances the activity of the sebaceous glands in state of hyperfunction among patients who tend to suffer from hormonal imbalances
- Decomposition of keratin and proper drainage of the sebum
- Inhibits the development of bacteria and stops inflammation from spreading

30 ML

AZILACUTANE CARE

Azilacutane Cream

Claims: Powerfully treats, balances, and renews especially problematic skin. Refines and blurs post acne scars

Active ingredients: Retinol, Azalea acid, Camphor oil, lactic acid

Potential treatment: Severe acne, characterized by increased sebum secretion associated with inflammatory acne lesions - papules, pustules, cysts, sebum imbalance, multiple comedones.

Explanation:

- A powerful cream based on retinoid
- Intended for a treatment course of up to 6 months
- Deeply renews the skin and balances the function of different skin cells

30 ML

AN-BSCCESS TREATMENT

Spot Treatment

Claims: A therapeutic cream for nodular skin lesions (pimples of varying severity).

Active ingredients: Camu Camu plant extract, lecithin, urea acids, Sulfur, marula oil

Explanation:

The product contains components that help restore skin cells.

DARK MASK

Deep Cleansing & Purifying Oxygen Face Mask

Claims: An active, gentle, deep cleansing and purifying oxygen face mask made with bamboo charcoal for a vital, luminous, healthy complexion.

SLS free, the mask enables shedding of dead skin cells from the corneal layer without over-drying or -irritating. The mask is suitable for all skin types and gently exfoliates whilst providing moisturizing components which compensate for the removal of excess dirt and essential oils to the skin barrier. In addition, the mask is used as a general brightening treatment for the appearance of the skin.

Active ingredients: Bamboo charcoal, Red seaweed, Kaolin, Jojoba Extract

Explanation:

"Dark Boost" Treatment - for an immediate luminous, bright, and fresh appearance

30 ML

RETINOL ACTIVE CREAM

Anti-aging renewing cream

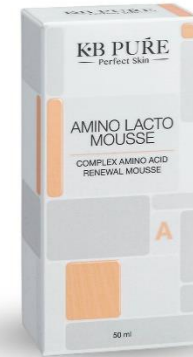

Claims: Firming, intense renewal from the depth of the skin, facilitation and acceleration of processes in aging skin

Active ingredients: Retinol, phytic acid, lactic acid, Kojic Acid

Potential patient: People with mature, tired, and dull skin. Intended for the treatment of fine lines, skin texture, and decreased tone (age 30+).

Explanation:

- Based on an active derivative of vitamin A and alpha hydroxy acids
- Allows renewal without overstimulation of mature skin while maintaining skin rejuvenation and skin moisture
- Designed to improve protein-building processes in mature skin (Gold/Gold Medium Cream)

50 ML

AMINO LACTO MOUSSE

Lactic acid mousse and amino acids for skin restoring

Claims: Restores delicate, sensitive, young skin

Active ingredients: Lactic acid, lactic bionic acid, Omega CHS Activator

Potential treatment: People with delicate/sensitive skin, younger people with no skin problems who want to slow aging, renewal of the neck, décolletage, the back of the hand

Explanation:

- A revolutionary moisturizing mousse that slows the formation of age signs
- Balances skin tone and contributes to renewal on a daily basis.
- Contains amino and hydroxy acids that enhance skin moisture.
- Regular use will improve skin texture
- Contributes to the renewal and balancing of the skin tone
- Suitable for all skin types

ANTIROSINE CREAM

AntiRosine Clarifying Cream

Claims: Inhibits and suppresses the formation of melanin pigment, clarifying spots and restoring skin tone

Active ingredients: Butyl resorcinol, Azil glycine, Alpha Arbutin, Kojic acid, Nitricamide - Vitamin B3 ,lactic acid

Potential patient: Patients with hormonal hyperpigmentation (melasma and chloasma), freckles, sun and age spots, post-inflammatory / post-traumatic hyperpigmentation. Effective as prophylactic treatment before invasive procedures.

Explanation:

- A revolutionary skin whitening product (melanin)
- Effectively inhibit and reduces the formation of melanin tones
- Effective as a treatment for hyper-pigmentation prior to aggressive procedures

50 ML

30 ML

ANTIROSINE BOOSTER

Whitening AntiRosine Serum

Claims: A booster that lightens stubborn skin spots

Active ingredients: Butyl Resorcinol, Azil glycine (azalea acid), Kojic Dipalmitate, Kojik di Palmita, Nitricamide

Potential patient: Patients prone to solar (senile) pigmentation characterized by particularly dark and opaque skin spots with well-defined borders. Patients in the process of clarification (of any melanocytic pigmentation) who have reached the stage where the treatment is not progressing, and spots do not continue to lighten with existing substances.

Explanation:

- A focused treatment for the clarification of particularly stubborn skin spots
- Composed of innovative raw materials and friendly penetration enhancers that enable effective and powerful treatment

30 ML

TIROSINOL SERUM

Lightening and Brightening Pigmentation

Claims: To delay and suppress the melanin pigment formation. The serum is used for general skin lightening and treatment of melanocyte skin spots on a hormonal, senile or solar background.

Active Ingredients: Tetra Peptide-30, Ondocilinic acid, Nicinamide, butyl resorcinol, arbutin, Kojic acid.

Potential patient: All skin tones and types without exception to various skin conditions, which tend to darken the skin due to hyper-pigmentation on a hormonal, solar (senile) background, post-inflammatory and lightening of freckles or particularly stubborn skin stains.

Explanation:

- A revolutionary lightening serum containing the most advanced lightening ingredients in the world.
- The serum allows for powerful and fast skin lightening in relation to good and other well-known lightening materials, due to advanced absorption technology that enables an optimal and fast reaction with the melanin cells in the skin.
- The preparation has a particularly powerful response with a minimum of stimulation.

HYALURONIC+

Active moisturizing serum for facial skin

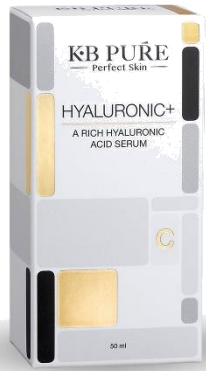

Claims: Moisturizing, restoring, soothing

Active ingredients: Hyaluronic acid, vitamin E, Vitamin B5, Vanilla extract

Potential patient: People with oil-free skin - use as a supportive moisturizer along with your usual moisturizing cream. People with secretive oily skin who are interested in an oil-free moisturizer that is not a cream.

Explanation:

- An active moisturizing serum
- Suitable for all skin types
- Improves skin tone, restores, and balances moisture
- Increases skin activity and facilitates renewal
- Skin will look fresh, supple and smooth

50 ML

HYALURONIC + SPARKLING EDITION

Serum for an especially radiant complexion

Claims: The active composition of the serum immediately blurs wrinkles, smoothes skin texture, and the nature-derived universal tint provides a healthy, luminous, and radiant appearance to the skin

Active ingredients: *Among the serum's ingredients- Hyaluronic acid, vitamin E, Vitamin B5, Vanilla extract, Mineral Shimmer

Potential patient: People who are **interested in** radiant skin look effect. Suitable for all skin types but recommended for oily and non-essential skin.

Explanation:

- For an especially radiant and luminous complexion, apply the serum to cleansed skin or after applying other moisturizing products
- For a gentle glow mix the serum with a moisturizer and apply an even layer to the skin until fully absorbed
- Highlight additional areas of the skin with double application

50 ML

GOLD CREAM

A rich anti-aging moisturizer for dry, oil-free skin which provides relevant oils to the skin to balance the dysfunction of the sebaceous glands. Suitable as a therapeutic preparation for people suffering from dry seborrhea.

GOLD MEDIUM CREAM

A light-textured cream that is easily absorbed and leaves a velvety touch - suitable for oily to combination skin, as well as for those suffering from oily seborrhea.

Claims: Moisturizing, restoring, relaxing, firming, and improves functions in mature skin

Active ingredients: Biometric peptides - Matrixil 3000, Hyaluronic acid, Vitamin E, C, Squalane and shea butter, Patented amino acid complex (14 Japanese amino acids)

Potential patient: Preventive treatment for younger people or for people with mature, tired, and dull skin. Intended for the treatment of fine lines and decreased tone (age 25+)

Explanation:

- Revolutionary moisturizers for comprehensive treatment of facial skin, the neck, the décolletage, and eye contour
- Includes an active composition of nano-proteins and antioxidants that improve processes in mature skin
- Blur the appearance of wrinkles and significantly delay skin aging
- Contain rehabilitation, construction, and relaxation substances that help support the skin barrier on a daily basis
- Do not contain paint, fragrances, allergens, or petroleum products

Age Signs

ELIZABETH WHITENING MASK

clarifying, moisturizing and anti-oxidant mask

Claims: Clarifying mask rich in fatty acids and antioxidants at active concentrations. The mask is used at the end of a cosmetic treatment, which leads to a powerful clarifying and soothing effect and blurring age signs.

Active ingredients: vitamins C, Kojic Acid: An antioxidant produced from rice yeast, contributes to an immediate clarifying effect and suppresses the activity of the enzyme tyrosinase.

Clinical contraindications: The use of this preparation is not suitable for people with sensitivities to citrus and various derivatives of vitamin C

Explanation:

- The mask has a powerful scent of citrus (no perfume).
- The clarifiers in the preparation are essential for clinic treatments and serve as a "strengthening player" for the treatment of skin spots.

Complementary and home use line

50 ML

MULTI-NEEDS EYE CREAM

Eye cream

Claims: A booster that lightens stubborn skin spots. Moisturizes, restores, clarifies dark shadows, drains edema, firms, blurs fine lines, and soothes delicate skin surrounding the eye contour

Active ingredients: Patented amino acid complex (14 Japanese amino acids), Biometric peptides - Matrixil 3000, Decornil, Hyaluronic acid, Oedipal plants

Potential patient: People with mature skin (30+) with dark shadows and edema under the lower eyelid, who wish to delay and blur the signs of aging.

Explanation:

- Designed for comprehensive treatment of the skin around the eyes
- Its rich composition contributes to the blurring of age signs
- Reduces the depth of wrinkles and promotes uniform distribution of excess pigment
- Improves elasticity of the skin, greatly contributes to the improvement of a grayish appearance and under-eye darkness.
