

DYKAM Linerless

Without the need for backing paper, Dykam Linerless labels are cost-effective and environmentally friendly, with outstanding performance on numerous surfaces.

Available in various adhesive types – Dykam Linerless labels are ideal for marking applications in various markets including logistics, packaging, warehousing, retail and industrial.

Advantages:

- Increased efficiency – up to 40% more labels per roll means longer runs and fewer roll changes
- Reduced environmental impact – zero liner paper waste
- Reduced logistic costs – higher label volume and lower weight reduce shipping and storage costs
- Lower TCO

Why choose Dykam linerless?

- Backed by decades of experience and knowhow
- Produced using cutting-edge technology
- Comply with all European standards
- Tailor-made and customizable in terms of adhesive type, patterns and pre-printing requirements, for all applications
