

GreenCat users say:

I was given Green Cat to try at home with my own cat. It works as promised. After one week of use, no odor at all
Dr. Aya Pri, D.V.M

I've been using GreenCat for over 5 years and I love it. GreenCat eliminates all the bad odors without the use of chemicals, or irritating my cat. I am very happy with GreenCat and will continue to recommend this product to my friends as the best solution to avoid box odors.
K, Gabai

It used to be that when you would walk into our house, you'd get hit by cat litter odors. No more. For the past couple of years, I use GreenCat and no one knows I have cats just by walking inside our house.
G. Koppel

I add GreenCat to the litter box and the odors are gone. It's so nice not to have to live with litter box smells. I recommend this to anyone with a cat.
E. Friedman

I have been using Green Cat for three years now. It totally eliminated my cat odor problem even when I lived with four cats. It neutralizes the smell and lengthens the life of the cat litter sand. It makes a big difference and is also always in stock. I will definitely keep using this life changing product.

GreenCat

Cat litter Odor Eliminator Supplement
Natural. Innovative. 100% Effective.

See how it works

Get Fresh with GreenCat

Even the most effective cat litter doesn't eliminate all the bad odors from your cat's litter box. At best, they mask the smell with perfumes, which your cats don't like and aren't completely effective - especially over time.

The innovative, scientifically-proven cat litter supplement GreenCat, absorbs odor on contact, totally eliminating bad smells immediately.

The Power of Activated Carbon

Recognizing a need in the market, our cat-loving scientists set out to develop an effective litter box odor eliminator. But being effective wasn't enough. We wanted a product that was safe for both people and pets of all sizes.

Activated carbon is widely known as the most effective naturally occurring absorbent. It is used extensively for odor elimination and filtration in a wide variety of applications.

After intensive research and development, we developed just the right combination and type of natural ingredients for 100% odor elimination.

Greencat works

- It will keep your home smelling fresh and odor free for up to 10 days.
- Scientifically proven to absorb odors on contact
- Safe and effective - 100% natural plant based ingredients
- Extends the life of your litter, so you'll use less of it because you won't need to change it as often

FAQ

How does GreenCat work?

GreenCat is made from activated carbon. Once its mixed in your cat litter, the carbon automatically adsorbs all the bad smells on contact.

Is GreenCat safe?

Yes, absolutely. It's made from all natural ingredients. GreenCat is extracted from plant based activated carbon.

Will it bother my cat?

No, the opposite. Cats really don't like the heavy perfume found in many cat litter deodorizers. With GreenCat you'll get a fragrance-free additive which your cat will appreciate.

How long will it last?

It depends on how many cats are using the litter box, but on average GreenCat eliminates odors for up to 10 days, when used by one to two cats in one cat litter box.

How much should I use?

Packages are pre-measured. Just pour and mix one pouch of GreenCat in clean cat litter and its ready.

Where can I buy it?

GreenCat is available in retail outlets throughout the US. Send us an email and we'll let you know where to find your nearest retailer.
