

## WHO ARE WE

EZbra represents a comprehensive and elegant solution specifically crafted to cater to all the post-breast surgery needs of women. It stands as a sterile, single-use, medical-grade compression bra, while simultaneously serving as a non-adherent and absorbent primary wound dressing solution. EZbra features three distinct and individually adjustable layers of compression, ensuring optimal comfort and support during the recovery process.

CURRENT SOLUTION

WITH EZBRA

## WHY

**1 out of 8** women will be diagnosed with breast cancer during her lifetime.

**>17 Million** procedures (10M biopsies, 3.5M cosmetic & 3.5M cancer surgeries) are performed annually worldwide.

While techniques to perform breast surgeries have improved drastically over the years, Post-surgery recovery dressing methods often **remained unchanged.**

## EVERYONE BENEFITS FROM EZbra

*EZbra® is CE-Marked, FDA Class 1-designated (exempt from 510K), ISO certified.*
