

GranaGard[®]

NANO-OMEGA 5

Granalix
BIO TECHNOLOGIES LTD

GranaGard® NANO-OMEGA 5 SUPPLEMENT

Patent-Protected Nano-Drop Technology

from The Hebrew University of Jerusalem

Clinical Trials

from Hadassah Medical Center

Safe

for long-term use

Contains One of The Strongest Antioxidants in Nature

Omega 5 (Punicic Acid)

Natural Ingredients

Pomegranate Seed Oil

Sugar Free

No added sweetener

WHY GranaGard® ?

- ✔ Patented nanotech brain health supplement
- ✔ Support your memory, focus & cognition
- ✔ Innovative science for maximum bioavailability
- ✔ Developed & tested by renowned scientists
- ✔ Israeli innovation, production and testing to the highest standards
- ✔ Powerful antioxidant properties

GranaGard® NANO-OMEGA 5 DROPS

CLINICAL STUDIES

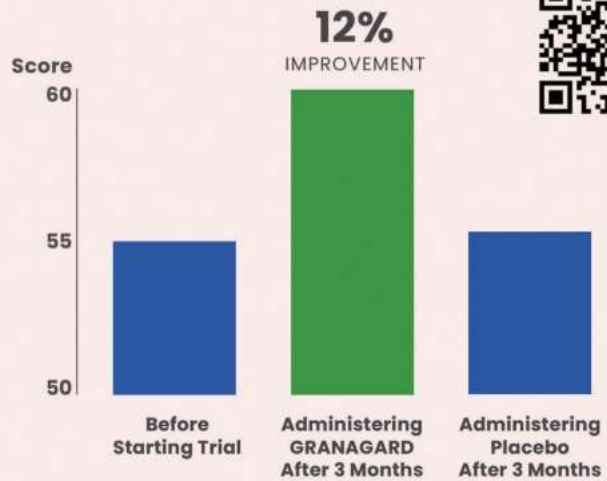

A CLINICAL STUDY CONDUCTED ON HUMANS FOR 6 MONTHS¹

12%

Improvement in Cognitive Memory Abilities, such as:

- ✔ Text learning
- ✔ Memorizing
- ✔ Remembering words

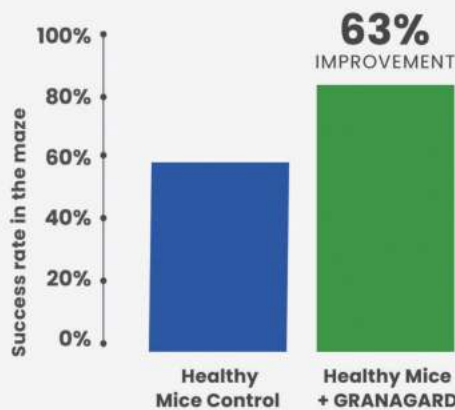

¹ Mult Scler Relat Disord. 54, 103103 (2021)

CLINICAL STUDIES CONDUCTED ON MICE

GranaGard reaches the brain and affects memory²

A 63% improvement in long-term associative memory was present in healthy mice supplemented with GranaGard

² Sci Rep 9, 18437 (2019)

GranaGard increases life expectancy

Continous administration of GranaGard significantly increased survival in mice

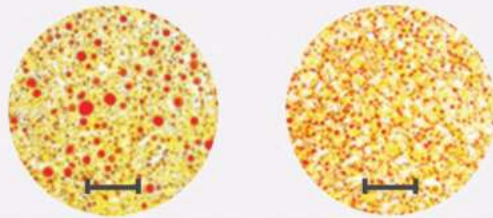

4.8 months (extrapolated) will be equivalent to 15 human years. *'A month in a mouse's life is equivalent to approximately 3 human years.'*

³ Neurobiol Dis 108, 140 (2017)

CLINICAL STUDIES CONDUCTED ON MICE

GranaGard improves hepatic steatosis in mice fed a high-fat diet by increasing fatty acid utilization in hepatocytes⁴

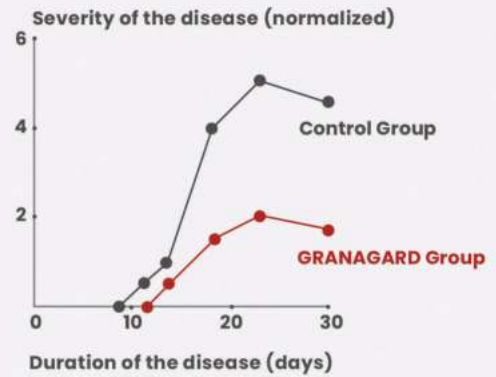

Liver Under High-Fat Diet

Liver Under High-Fat Diet Treated with GRANAGARD

⁴ Sci Rep 10, 15229 (2020)

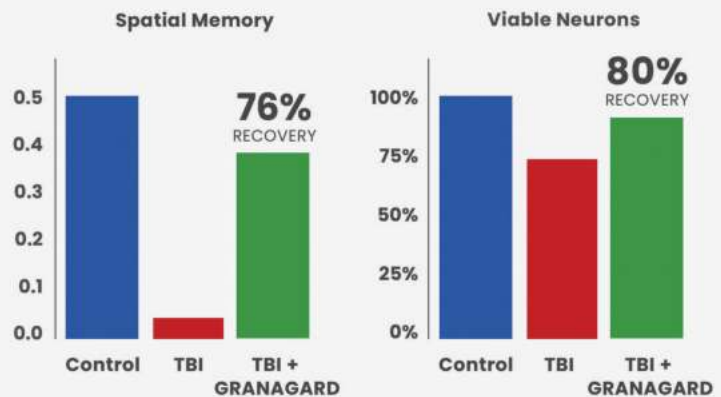

Anti-inflammatory activity in mice⁵

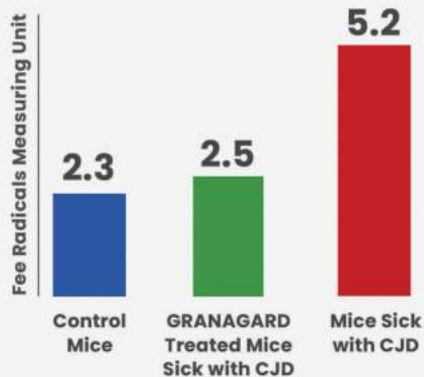

⁵ Int J Nanomedicine 10, 7165 (2015)

GranaGard protects mice from Traumatic Brain Injury (TBI)⁶

⁶ Molecules 27(9), 2725 (2022)

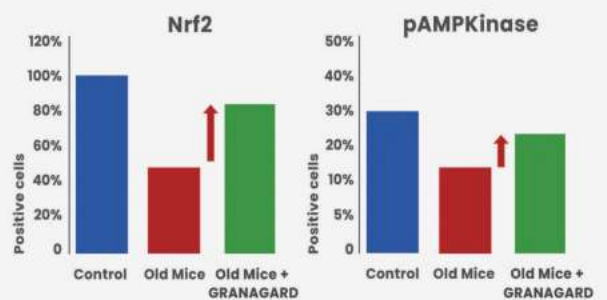

GranaGard reduces the free radicals created in mitochondria in mice⁷

⁷ Neurobiol Dis 124, 57, (2019)

GranaGard increase anti-aging enzymes in brain

⁴ Neurobiol. Aging 110, 77 (2022)

INNOVATIVE NANO TECHNOLOGY

GranaGard

Omega-5
Nano-Droplet Technology
Dissolves into the Water

Other

Standard
Pomegranate Oil
Floats on the Water

This image illustrates the difference between GranaGard's oil that dissolves into nano-droplets vs plain pomegranate seed oil.

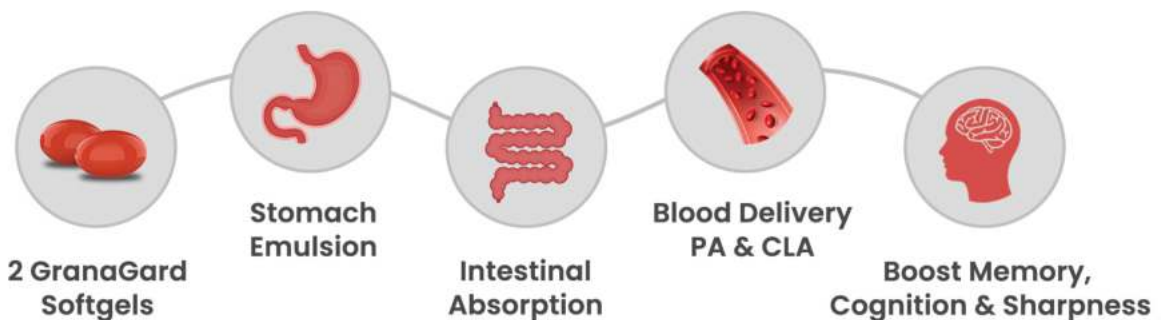

HOW DOES IT WORK?

Upon reaching the stomach, GranaGard PSO capsules break down into punicic acid nano-droplets designed to pass the liver and absorb directly into the bloodstream.

In the bloodstream, punicic acid (PA) inhibits the formation of free radicals that cause the oxidation of proteins and lipids (fats). Once the punicic acid passes the blood-brain barrier, it converts into conjugated linoleic acid (CLA).
