SMART BUILDING TECHNOLOGY

ABOUT THE COMPANY

HOMISMART is an Israeli high-tech company active in the field of building management, smart and a leader in technological innovation. Homismart is a business partner of Google company in the field of smart home, voice activation and have standard from the Institute of Israeli Standards and European CE standard.

The company's technology and products allow **full integration for smart building management** that includes: smart electricity, smart access control, smart parking management, security cameras, sensors, alarm systems, Integration to smart elevators, Digital signage screens, smart technology for supervising maintenance and interfacing with other existing systems.

Homismart technology won European competition for smart construction BUILT WORLD Homismart reached the final stage with 4 more companies out of 1500 competing in a European competition for smart construction in July 2020

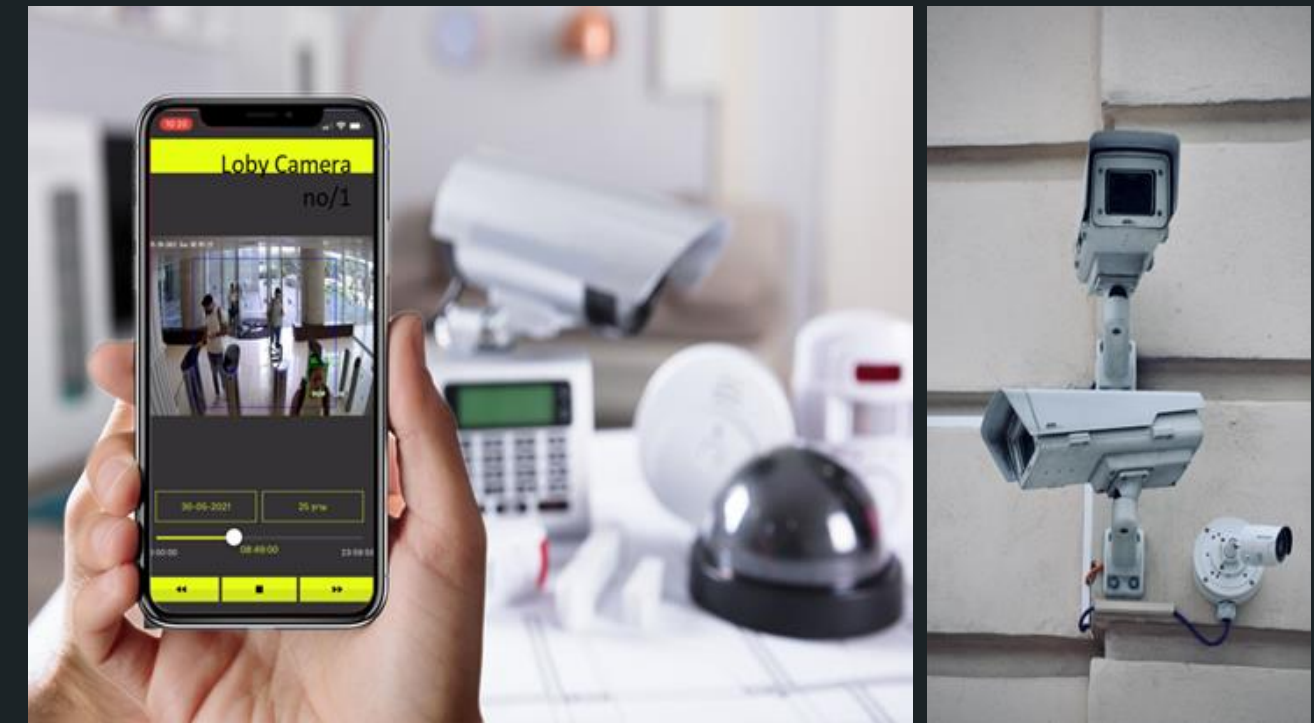

BUILDING OPERATION SYSTEM

HomiSmart developed solutions for the smart building including:

One integrated solution that changes all the common way towers and buildings are traditionally managed and maintained making the building to become much safer, greener, and easier to manage for all operational /management functions with technologies that were developed to each segment:

- **Smart building Integration** system –with applications for multiple functions in the buildings (lobby/security personal/facility management/technicians/ logistic)
- **IN/OUT control** -Smart Intercom, Speed Gates, Kiosk – Check In information system, Digital Signage screens, Smart technology for supervising maintenance.
- **Security Cameras & Smart Sensors** – all type of digital cameras, Alarm system, Sensors with AI and taking action implementation as ruling defined
- **Smart electricity** – for smart home and public electricity in the towers control, Electricity efficiency, Breakdown Metering
- **Smart Elevators** -Destination control, integration with Smart Elevators like Schindler's elevators
- **Smart Electric Faucets**-Water leakage alert system
- **Smart Rental System**-short term Rental real estate system , Access & Payments
- **Smart parking** –for multiple use cases for all types of parking needs and uses

HOMISMART-INTEGRATION

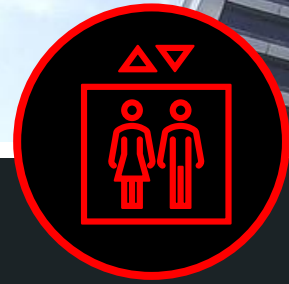

Smart Access Control,

Check in Stations, Speed Gates, Intercom, Digital Signage screens, smart technology for supervising maintenance

Security & Sensors

Security cameras, Alarm system, Smart Sensors.

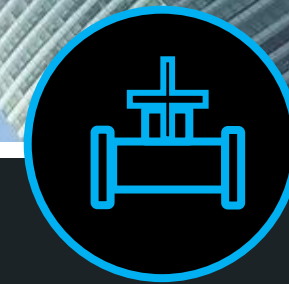

Smart Elevators

visitor permission system(can also be connected to IN/OUT module

Smart Parking

Smart Parking lot system

Smart Electric Faucets

Water leakage alert system

Smart Electricity

Electricity efficiency, Breakdown Metering

Smart Rental System

short term Rental real estate system , Access & Payments

Homismart's technology allow full integration for Smart buildings management
