

PACKAGING FOR DIFFERENT INDUSTRIES

Label Protection Tape
LPT9220

Special adhesive formula for label cover and protection against mechanical and chemical damage.

Deep Freezer Tape
DF843

Excellent adhesion in low temperatures and in freezers or deep freeze storage. Can be also printable/printed.

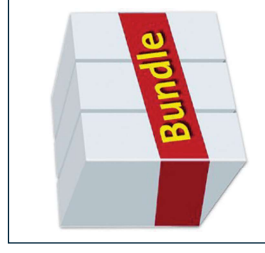

Strapping Tape
NR675/NR685

MOPP film coated with special LOW TACK adhesive formula, used for several packaging functions including: 'White goods' temporary holding requirements in graphics, surface protection, and more.

Carry Handle Tape

Fully customizable! In all variations – spools, pancakes, with or without insert (of paper, foam or other). Various material options for different needs - MOPP, PET, PE, rPET. **Now also PAPER BASED.**

Bundle Tape for multipacks BT665

Special LOW TACK adhesive formula - easy to remove without damaging the product pack. Can be custom printed. **Now also Acrylic Water Based option (LT500).**

PACKAGING FOR DIFFERENT INDUSTRIES

Eco Kraft Tape

Paper Sealing tape. Heavy-duty, effective, easy to use, and as a bonus - it is also sustainable!

Printable Tape PRESTO PRINT

Various film thickness. Various adhesion strength. **Now also SOLVENT-LESS.**

Hot Melt Carton Sealing Tape

Various thickness. Various adhesive strength. **Now also SOLVENT-LESS.**

FOR NON-WOVEN INDUSTRY

Splice Detection Tape Performs both as a splice tape with good adhesion, and as detection tape for metal and optic sensors.

	Materials		Dimensions		Available colors	
	Film	Adhesive	Detection	Width		Length
DS4935	Aluminium	Acrylic	Film Metal & Optic	25 mm 38 mm 48 mm	50 m 50 m 50 m	Red, Blue
DT4133	BOPP/PET	Hot Melt	Aluminium strips - Metal; Film - Optic	48 mm	50 m	Blue
DS4885	N/W fabric	Acrylic	Aluminium strips - Metal; Film - Optic	48 mm	50 m	Red, Blue
DS4926	Tissue Paper	Acrylic	None	25 mm 38 mm 48 mm	50 m 50 m 50 m	Black

BOPP film coated with special Acrylic water-based adhesive. Can be used for flying splices and for splices in folding machines.

Aluminium colored foil coated with Hot-melt high tackiness adhesive, integrated with two aluminium stripes. Can be used for flying splices in wide web production lines.

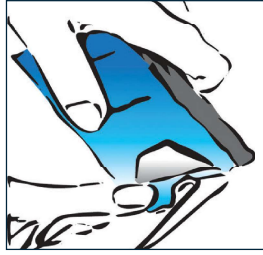

Nonwoven fabric coated with special Acrylic water-based adhesive, integrated with two aluminium stripes. Extremely stretchable! Can be used for flying splices in wide web production lines.

Tissue paper carrier coated both sides with High Grade Acrylic water-based adhesive. Can be used for great visual identification of splice in the process.

Custom Security Tape (Tamperevident tape)

This unique tape will provide clear evidence of any unauthorized attempt to open the packaging. The tape is suitable for sealing cardboard boxes, plastic bags, envelopes, surface marking, and more.

Resealable finger lift tape FL7195

Can be opened or closed numerous times without losing its adhesion. Fully customizable! Tailored made solution are possible! **** Certified for food contact approval.**

SPECIAL TAPES FOR DIFFERENT INDUSTRIES

Double-Sided PET tape DS4451/3

This versatile and reliable adhesive tape used in various industries for bonding, splicing, and laminating applications. It is composed of a PET polyester backing and a Hot-Melt synthetic rubber adhesive, which makes it an ideal choice for creating a continuous and strong bond between flexible and soft surfaces.

Double Sided Stretch Tape DS4341W

A specially designed tape for splicing and laminating difficult-to-stick substrates in various industries.

One of the major advantages of this tape is its bi-siliconized paper interliner that makes it easy to handle and apply. In addition, the tape has a high adhesion capability and can stretch to accommodate expansion and contraction, making it ideal for use with flexible substrates. Its high elongation properties also allow for excellent bonding of irregular and curved surfaces.

Whether you're in the printing, packaging, or automotive industry, the Double Sided Stretch Tape DS4341W is a reliable and versatile solution for all your splicing and laminating needs.

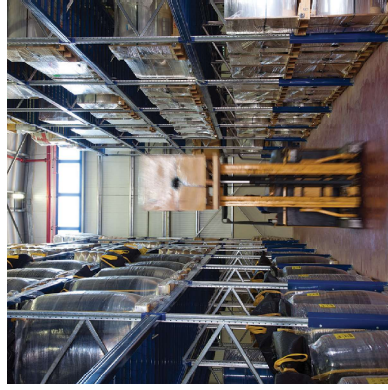

Spooling Technology

Spools have a wide range of applications and are utilized in various industries, such as automotive and transportation, white goods, building, electrical, electronics, manufacturing, medical and healthcare, packaging, and renewable energy.

By choosing our product, you can benefit from the following advantages:

- Our spools are designed to be very long, allowing for automation of the application process and reducing the frequency of production line downtime, ultimately leading to higher productivity.
- With fewer tape joints needed, our product can help reduce production waste and lower overall production costs.

FOR AGRICULTURE INDUSTRY

CATCHY = The all-in-one pest control & monitoring system for greenhouse, indoor and net house farming

Catchy Yellow for effective trapping of the flying stages of tobacco white fly, flying adult aphids and adult leaf miners. Effective also against adult stages of shore flies and fungus gnats which develop in the growing matrix.

Catchy Blue for effective monitoring and control Western Flowers Thrips and other thrips species.

Catchy Black for effective trapping of tomato pin worm/leaf miner (Tuta absoluta).

Ask Davik team for recent studies and for new developments

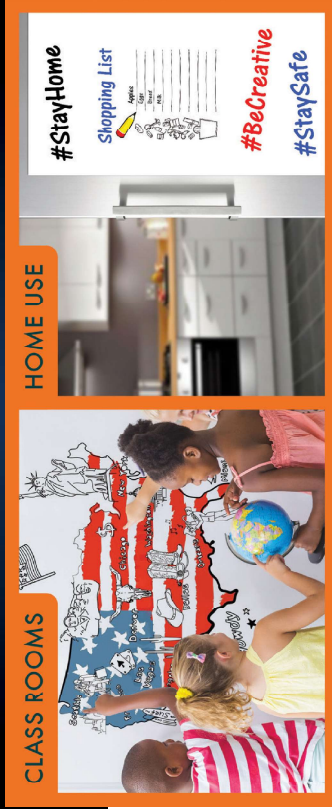

UV resistant tape

Developed for application on rough surfaces - and specifically for use outdoors. It provides outstanding resistance to direct sunlight for extended periods (even up to 12 months).

Used for outdoor joining of PE film and non-woven PP with net wrapping.

FOR DIY, RETAIL AND BUILDING

CLASS ROOMS

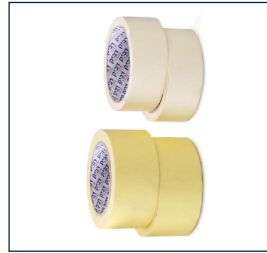

HOME USE

UNDO = Removable Whiteboard sticker

Transform any surface into a creativity area!

The perfect place to keep your to-do list, add that extra touch to your office, or make notes for your online classes!

The unique slide-cutter eliminates the need for scissors, and the strong, removable adhesive backing means no nails or glue! All you have to do is unroll the product and stick it to your clean, flat surface to transform your space instantly.

Masking tape

DIY/ Building adhesive tape made of a thin and easy-to-tear paper, also known as painter's tape.

Printed Tape

Beautiful printed designs for any occasion! Choose our home designs or make it custom!

Detachable Carry Handle Tape

Make any item easy to carry with our smart adhesive strap! Can manage up to 18kg weight. Show how you carry for the environment - less of a need for bigger plastic bags.

DAVIK IS AN EXPERT IN ADHESIVE TAPE SOLUTIONS FOR DIFFERENT INDUSTRIES SINCE 1982.

DAVIK OFFERS A FULL RANGE OF SPECIALTY TAPES PLACING A STRONG EMPHASIS ON QUALITY AND SERVICE.

DAVIK R&D IS ALWAYS READY FOR NEW CHALLENGES. DAVIK CONTINUALLY UPGRADES ITS TECHNOLOGY, MATERIALS, AND KNOW-HOW. MOST OF OUR PRODUCTS ARE BASED ON OUR INNOVATION AND OUR ABILITY TO FIND THE EXACT SOLUTION TO MEET OUR CUSTOMERS' DEMANDS.

- **Speedy & Personal Service**
- **Sustainable** – Not only developing new sustainable products pursuing new trends and regulations, but also using solar energy for manufacturing, reaching up to Zero carbon footprint.
- **Development capabilities** - Our in-house R&D team includes chemists, material and mechanical engineers, and production specialists. This team constantly researches and looks for ways to improve our methodology, so we can provide each customer with the exact solution they need.
- **Flexibility in adhesive & design** - Most of our tapes are customizable:
 - **Davik adhesive formula** – serving a special need
 - **Design** – outlining your brand.
