HOW IT WORKS?

Material

We use high-quality double-sided metal-color laminated **paper**.

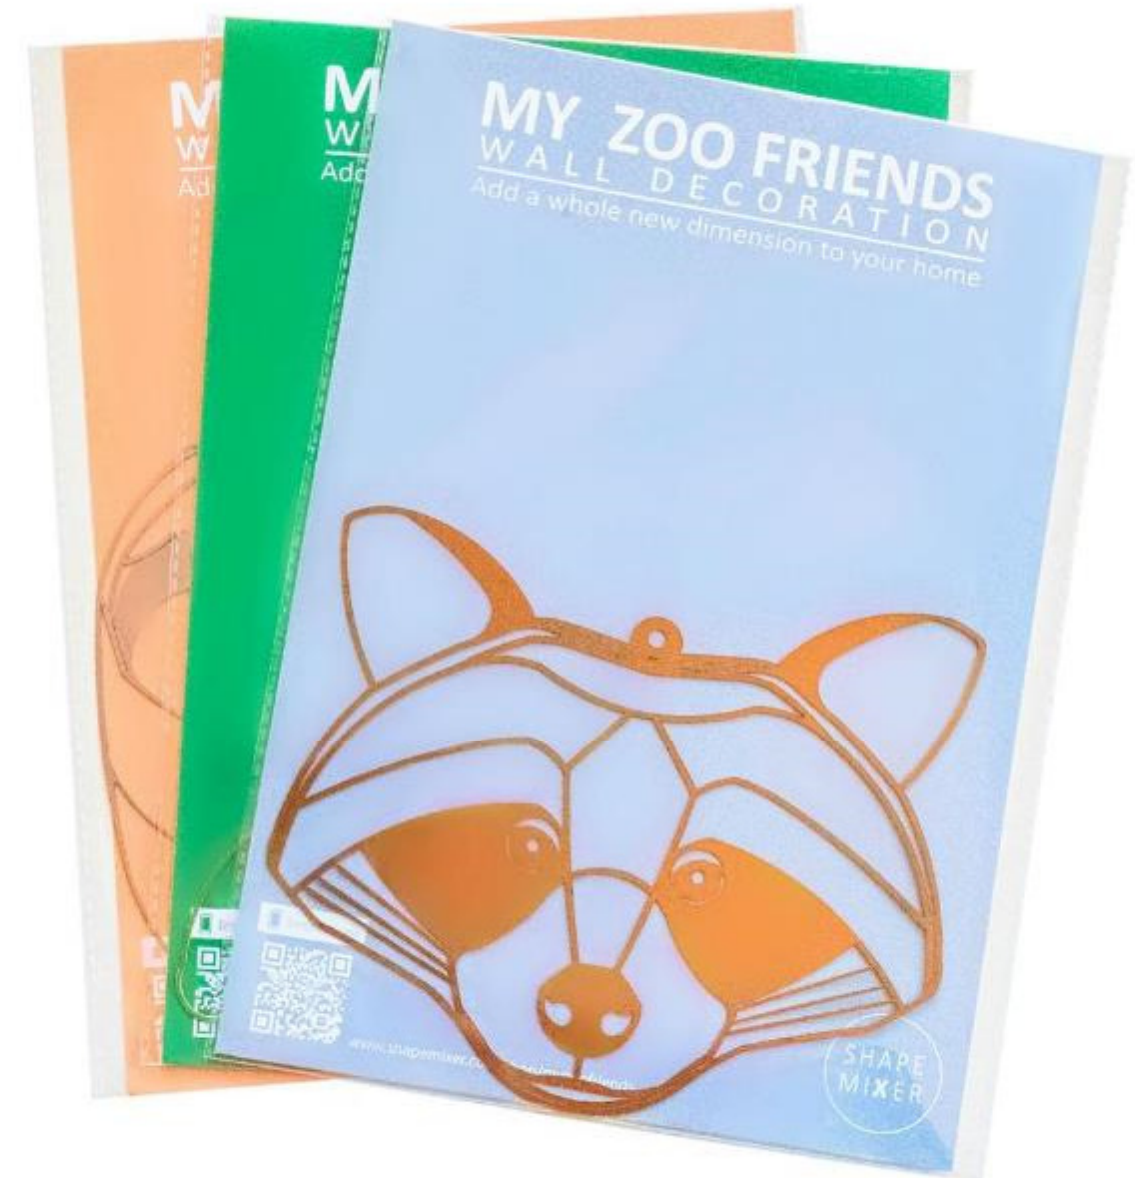

Stretching

With just a simple stretch, this item transforms into a 3D living shape.

Hanging

Easily hang on the wall with a small nail or double-sided glue.

Colors

Our items come in a variety of metallic colors to choose from.

Packing & Shipping

All items are flat-packed for easy shipping and storage.

Oh Hey There!

I'm Adva Yehuday, the designer behind ShapeMixer Design Studio.

My love for paper started while I was a student studying industrial design. Later, I worked as a packaging designer for commercial products for a few years.

As soon as my first daughter was born, I knew I wanted to do something that truly fulfilled me. I have always been passionate about paper and its ability to be transformed into something beautiful and unique. So, I took a leap of faith and founded ShapeMixer, a design studio that creates colorful and minimalistic items made with love and care. My goal is to create pieces that bring joy and beauty to any room.

I have designed a collection of wall decoration made of paper that appears strong and dominant, yet is also delicate, light, and has a metallic finish that gives off a metallic feel.

The magic of our collection lies in the transformation of flat, double-sided metal-color laminated paper into 3D forms through a simple stretching process, which allows us to create an endless unique and creative designs.

- Our feather collections can be found in museum stores and gift shops.
- We have the capacity to produce large quantities of items and we also offer custom design services to meet the specific needs and preferences of our customers.
- Our items have a retail price range of \$15 to \$25.

**I'D LOVE
TO HEAR
FROM YOU!**
