MORIAH

TAKE A PIECE OF JERUSALEM WITH YOU

JERUSALEM is the spiritual center of the world, a city of passion, the City of Peace. Moriah is the biblical site where Abraham first embraced the belief in One God, sowing the seed of three great faiths. It is the strategic outlook in the Holy City of Jerusalem on which her great Temples were built.

AUTHENTIC STONES FROM THE TEMPLE MOUNT SIFTING PROJECT

In 2004, the Temple Mount Sifting Project was established in order to save and study the archaeological artifacts that were buried in the soil removed from the Temple Mount in an illegal excavation in 1999. These stones were among the natural stones which were discarded during the sifting work.

THE BIRTH OF A VISION

While examining these ancient stones, Avi Tavisal, a seventh generation Jerusalemite, a leading Israeli Jeweler and a major contributor to the sifting project, had a vision. He recognized the Heavenly Spirit embedded in these ancient stones, and strived to reconnect each individual

anywhere in the world, to the inner beauty, peace and moral values that are “The Heavenly Jerusalem”.

Avi Tavisal developed his vision into the breathtaking Moriah Jerusalem Stone Jewelry Collection. Each piece of Moriah Jewelry conveys a passionate message by interlacing precious materials that exist since the beginning of time, representing Jerusalem’s strength, value and holiness.

THE MORIAH COLLECTION

“Moriah” collection is Diamond and Gold Jewelry crafted with Authentic Jerusalem Stone at its Heart. “Moriah” interlaces precious materials that have represented Jerusalem’s strength, value and holiness for more than 3,000 years.
