Kindly see below information about the key ingredients in our formulations:

Baobab Oil:

Native to the African savannah where the climate is extremely dry and arid, it is a symbol of life and positivity in a landscape where little else can thrive...The majestic Baobab Tree which is known as The Tree Of Life is an icon of the African continent and lies at the heart of many traditional African remedies and folklore.

Women in Africa have turned to the baobab fruit as a natural source of health and beauty for centuries. Now you can also enjoy the benefits.

Moringa Oil:

Moringa is Africa's miraculous plant and often grows alongside the Baobab tree. known for its countless health and beauty properties, the miracle plant, Moringa Ovalifolia. It is a significant tree due to its many nutritional and medicinal properties. The Moringa tree is a tree that doesn't stop giving, no wonder it is a "miracle plant" in many countries. There are nine different Moringa tree species in Southern Africa, Northeastern Africa, Madagascar, and India. However, the only endemic Southern African Moringa species is the magic of the Moringa Ovalifolia tree and this is what we use in our formulas.

Marula Oil:

Under the hot South African sun where wildlife still roams the untamed Savannah, grows the heart and soul of African Botanics, The Marula tree. Marula oil which is also known as the "Miracle Oil" is pressed from the seeds of the marula tree which is native to South Africa and helps to soften the appearance of fine lines and wrinkles, stimulate collagen production and fight free radicals. improves skin elasticity and texture.
