

Creating a  
**Smarter Future**

# Leading the Way Towards a Smarter Future

An innovative and forward-thinking integrator, MER has secured its position as a global leader, at the cutting edge of technology. Specializing in the areas of communications and security, MER Group delivers superior solutions, from comprehensive homeland security, IoT, intelligence and cyber solutions, through advanced communications infrastructures, to tactical communications systems.

MER Group offers a diverse portfolio of technology-based solutions and end-to-end services that include: consultancy, development, engineering, manufacturing, integration and implementation.

As we look to the future, we are determined to maintain our leadership and relevance by remaining at the cutting edge of technology, developing new products, exploring new opportunities and offering our customers the very latest services and solutions.

**Nir Lempert**  
CEO

# MER Group at a Glance

Established as a family business, today MER Group is a publicly traded company (TASE: CMER) managing dozens of global subsidiaries. With operations throughout Latin America, the US, Africa, the UK, Asia and Israel, MER has gained vast experience and a solid reputation through proven successes, while retaining the ability to provide tailored solutions for projects of all sizes.
