MISSION

Spetrotec's mission is to provide customers with the best user experience through innovative company hardware, software and services.

WORKING TOGETHER

EXPERIENCE

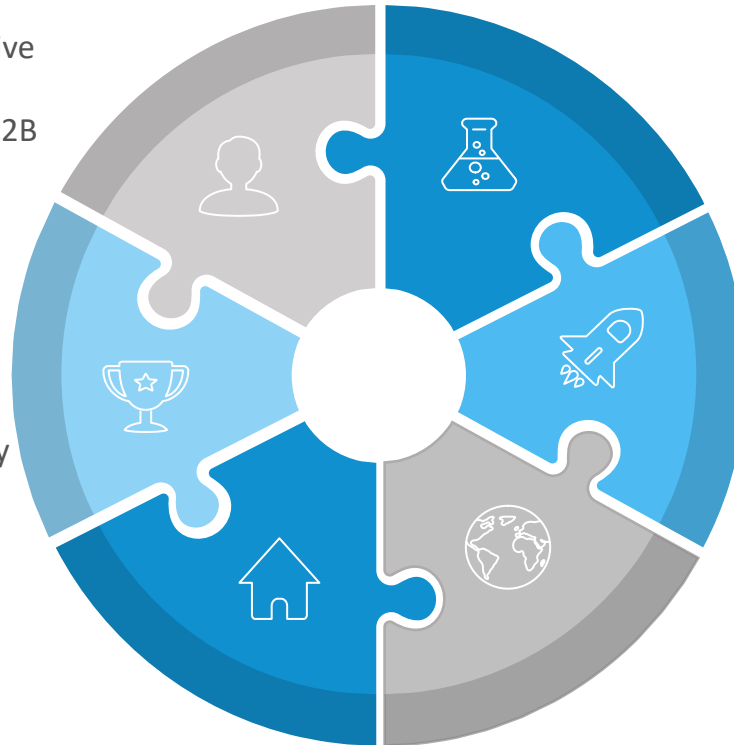

30 years expertise in the automotive market in the fields of: telematics systems, shielding systems, B2B, C2B & OEM/ODM.

QUALITY

Designing & manufacturing products according to strict quality requirements & high standards.

SERVICE

In- house solutions: development, production and service.

INNOVATION

Leading the market changes - Combining innovative technologies in the IoT world. Our dynamic approach helps us predict and adapt to changing market trends.

CREATIVITY

Our creativity allows us to create tailor-made solutions for specific customer requirements.

TRACK RECORD

Our products are installed in about 70% vehicles in Israel & in hundreds of thousands vehicles worldwide.

IWATCHER SOLUTIONS

FLEET MANAGEMENT

A host of solutions that help improve vehicle maintenance, reduce operational costs, ensure proper car usage and maximize car fleet potential.

VEHICLE SECURITY

Cutting-edge systems with unique hardware and software, which are designed to thwart car theft and prevent unauthorized driving.

MOTORCYCLE SOLUTIONS

Top-level management tools that help improve motorcycle maintenance, ensure proper motorcycle driving and lower operational costs.

LOGISTICS

Advanced asset protection and monitoring solutions that enhance a wide variety of organizational storage and shipping procedures.

VEHICLE TRACKING

Marketing leading solutions that help fleet managers better understand driver behavior patterns – and cope with car theft and other unforeseen emergencies.

VEHICLE DIAGNOSTICS

Diagnostics solutions that create safer driving and improved car maintenance, resulting in better upkeep, smarter decision making and more money saved.

CONSTRUCTION EQUIPMENT

High level solutions for the construction sector, which keep heavy machinery and construction equipment protected and maintained.

ASSETS PROTECTION

Innovative solutions that help individuals and commercial asset owners keep their valuables safe and secure – even when they are in transit or far away.

IWATCHER PRODUCTS

iWatcher AVL

Provides fleet managers with advanced tracking capabilities and driver behavior control.

iWatcher CA

A car alarm & control unit that thwarts vehicle theft and supplies valuable data and alerts.

iWatcher CAN

The ultimate vehicle management solution, blending vehicle tracking and diagnostics.

iWatcher CAN GUARD

Combines vehicle tracking, diagnostics, theft protection and driver behavior access.

iWatcher GUARD

A vehicle security system that prevents car theft and offers tracking & data alerts.

iWatcher LOCATE

Offers tracking for containers, towable carts and other non-powered storage units.

iWatcher LOCK

A smart lock that informs asset and motorcycle owners of break-in and theft attempts.

iWatcher MOTO

An alarm & control unit that prevents motorcycle theft and provides crucial vehicle data.

iWatcher OBD

Offers vehicle tracking, OBD II diagnostics and superior driver behavior data.

made by SPETROTEC
iWATCHER[®]
LOCK

Smart lock that combines a robust physical padlock together with real-time status notifications to the owner's cellphone.

The ultimate solution for protection, location and monitoring of assets, for logistics and security.

Ideal for locking containers, gates, motorbikes, remote location storage, heavy equipment and in-transit cargo.

- **2 durable batteries for long-term monitoring**
- **Direct real-time alerts to mobile phone**
- **Accurate location pinpoint during alerts**
- **High-quality locking mechanism**
- **Suitable for harsh environmental conditions**
- **Convenient and user-friendly**

OPTIONAL ACCESSORIES:

AA Batteries | 100 mm Shackle
