

## We Are Univo.

**PUBLICLY TRADED ON THE TLV STOCK EXCHANGE SINCE 2018**  
**UNIVO.TA**

One of the biggest Vertically integrated medical cannabis companies in Israel. The full control of the value chain, from cultivation to distribution, enables us to meet the highest quality standards and supply market's demand.

We take pride in our cutting-edge research and development capabilities and aim to constantly innovate to offer the next generation of medical cannabis products.

We provide end to end solution, combining science and nature to create unique quality flowers and extracts.

## Our Milestones.

### 2020

Conquering 7.5% market share in the first year.

collaborating with top Satellite farms to grow premium grade medical cannabis.

Producing white labels for various local partners.

High end research and development to create innovative medical cannabis product.

Cultivation of unique genetics at Amit Farm.

### 2021

Increasing market share to 12% (+60%).

Expanding distribution to maintain 100% availability in cannabis licensed pharmacies.

Expansion to global markets.

Solidify medical benefits by study groups and clinical trials.

Establishing worldwide collaborations.

Identifying & breeding exclusive strains for specific indications.

### 2022

Doubling the cultivation capacity at Amit farm.

Portfolio expansion: launching new innovative product focused on patient accessibility.
