Supplying Advanced Military Systems

The A.D. Consultants Group is a privately-owned company specializing in creating and supplying advanced systems for numerous, high-demand countries in Africa and South America. Founded in 1987 and headquartered in Nes-Ziona, Israel, the Group is represented both in its global subsidiaries in France, Belgium, Cyprus and several countries in Africa, and in permanent local offices in Bulgaria, Romania, Russia, Ukraine, Belarus, Serbia and the USA.

Answering a Variety of Needs

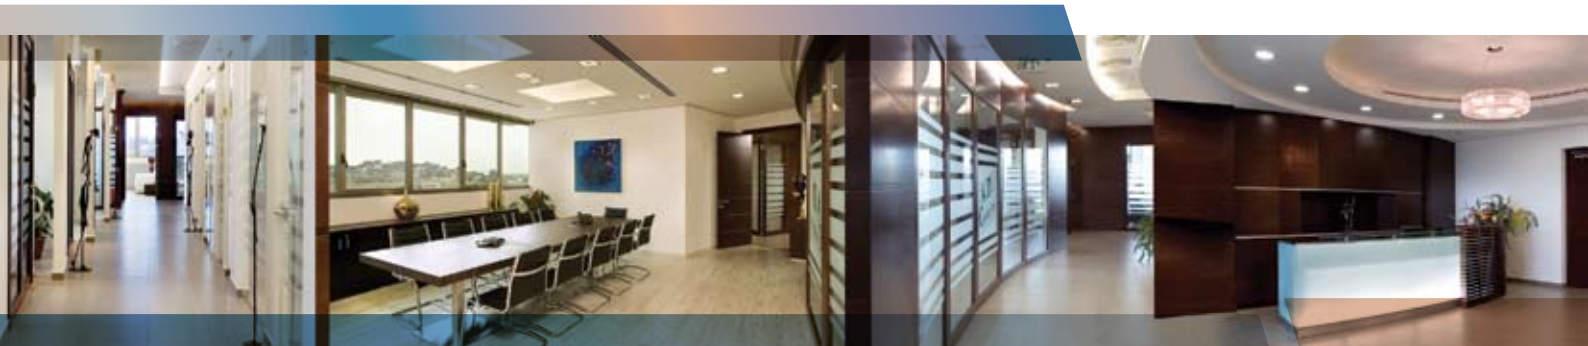

Acting under special authorization from the Israeli Ministry of Defense, A.D. Consultants provides advanced solutions for a wide spectrum of needs in the sea, air, land and for the homeland defense market. The Group is an exclusive worldwide agent for several military and security equipment manufacturers and ensures that its products are the highest quality available in the global military market.

Financing a Complete Solution

A.D. Consultants boasts vast experience in financing and implementing cost-effective, turnkey projects for the supply and installation of equipment, instruments and accessories in the military, security, communication and computerization markets. Customers benefit from a comprehensive offering which also includes financing, consulting services, personnel training, upgrade options and post-sales support.

Offering Top-quality, Customized Services

A market-leading, global provider of full-service logistic and defense solutions, A.D. Consultants is customer-oriented and is committed to supporting all customer needs. The Group works closely with highly professional experts in each field of activity and employs a dynamic team of highly qualified specialists who work together to provide customers with a tailored solution for their individual requirements.

GROUND FORCES

The Ground Force Division at A.D. Consultants is comprised of high-ranking, former military officers, and offers customers a complete range of top quality military equipment. Working according to the financial constraints defined by the customer, A.D. Consultants specialists can provide a customized solution which includes either completely new products or equipment from army surplus. Some of these products include:

- Tanks and armored carriers of all types
- Light and heavy artillery, towed or self-propelled
- Multi Launcher Rocket Systems (MLRS)
- Medium and light arms and ammunition
- Logistic and support equipment for any domain
- Advanced night vision equipment
- Anti-tank systems
