UNIQUE ADDED VALUE SERVICE

Business corporations today face the ever-expanding range of social and environmental challenges. Today, it is no longer satisfactory that business companies will engage solely in their area of expertise. They must take into account their social and environmental spheres of influence. Over the last few years this type of conduct has taken on different and changing names such as CSR Corporate Responsibility, Corporate Citizenship, Sustainability, Impact, and recently we are seeing how the term ESG gets to the forefront. Shibolet ESG has been established to assist corporations in navigating the change, improving operations, and delivering value.

Shibolet ESG is headed by Dr. Liad Ortar, who has been one of the leading experts in the field in Israel for the past 15 years, and holds a very rich and diverse knowledge.
