

cecilia.ai

The First Interactive Bartender

Cecilia.ai

The first robotic bartender that interacts and chats with visitors using conversational AI and voice recognition.

Cecilia is not your typical bartender. She makes delicious cocktails crafted by acclaimed mixologists, chats with customers, tells jokes, promotes your brand, and provides an unforgettable experience to new and returning visitors.

Cecilia grants businesses valuable customer data, a unique groundbreaking attraction for visitors, and a new way to advertise and stand out. Talk with us, and we'll see how Cecilia.ai can fit into your business or event.

Solution

Personalized Bar Experience

With Cecilia, things will never be the same. Have yourself a unique bartending experience, never seen anywhere else before, and customize Cecilia to fit perfectly for your business' needs.

Customized Conversation

Cecilia's script can be customized constantly and instantly with endless options. Use the power of our conversational AI to deliver info, tell jokes, share gossip, promote your business, or get to know your visitors better

Branding

Brand Cecilia with your logo and design, and even light up the side LEDs with your colors (Disco Mode is also available if you feel like partying)

Advertising Possibilities

Use the additional screen to add a beautifully designed touch-screen menu, with cocktails that you can choose and name yourself. You can also use the screen for promotional videos and banners

Customer Analysis

Use our business intelligence to dive deep into your audience's drinking habits, age, reactions, and commonly asked keywords to get actionable insights into boosting sales and improving the experience
