

TACTICAL BREACHING

SAN Ltd is a world leader of tactical breaching solutions which incorporates innovative technologies based on light materials, allowing one operator to carry and operate a powerful set of tools that can break into any structure at top speed.

SAN is the biggest supplier in this sector for Israel Defense Forces, police and firefighters' units, SAN's gear is also operationally used by special forces units across America, Europe, Asia, and Africa.

As SAN solution was created FOR Breachers BY Breachers, using their board operational experience, their electro-hydraulic breaching gear offers a big upgrade for the Police & HLS units, Firefighters & Rescue teams, Military & Special Forces in Multi-functionally, Weight, Design, and Speed.

SAN Ltd believes operators should obtain capabilities as Fast Response, Mobility, and Versatility which are major elements that enable the defense and rescue forces to perform their tasks efficiently, therefore, SAN continues to develop and design lighter and more compact kits to meet optimal operational requirements.

SAN's additional challenge is to identify and customize their tactical breaching gear in order to suit the needs of each tactical operator, that is why they work separately with each end-user to make the right adaptation to create the perfect fit, while also offering them training courses and reusable training aids they have developed in order to train them for every potential scenario.

TRAINING AIDS
CUSTOMIZED, REUSABLE
DIVERSE, MODULAR

BREACHING GEAR
FAST, POWERFUL, LIGHT
DURABLE, BATTLE PROVEN

TRAINING COURSES
OPERATIONAL EXPERIENCE
BASIC TO ADVANCED
