GLOBE**KEEPER**
KEEPING PEOPLE SAFE

GlobeKeeper is the world's premier provider of military-grade encrypted communications and tracking solutions for both private and public security organizations. GlobeKeeper's products are designed to keep people safe, reduce costs, and greatly improve team collaboration.

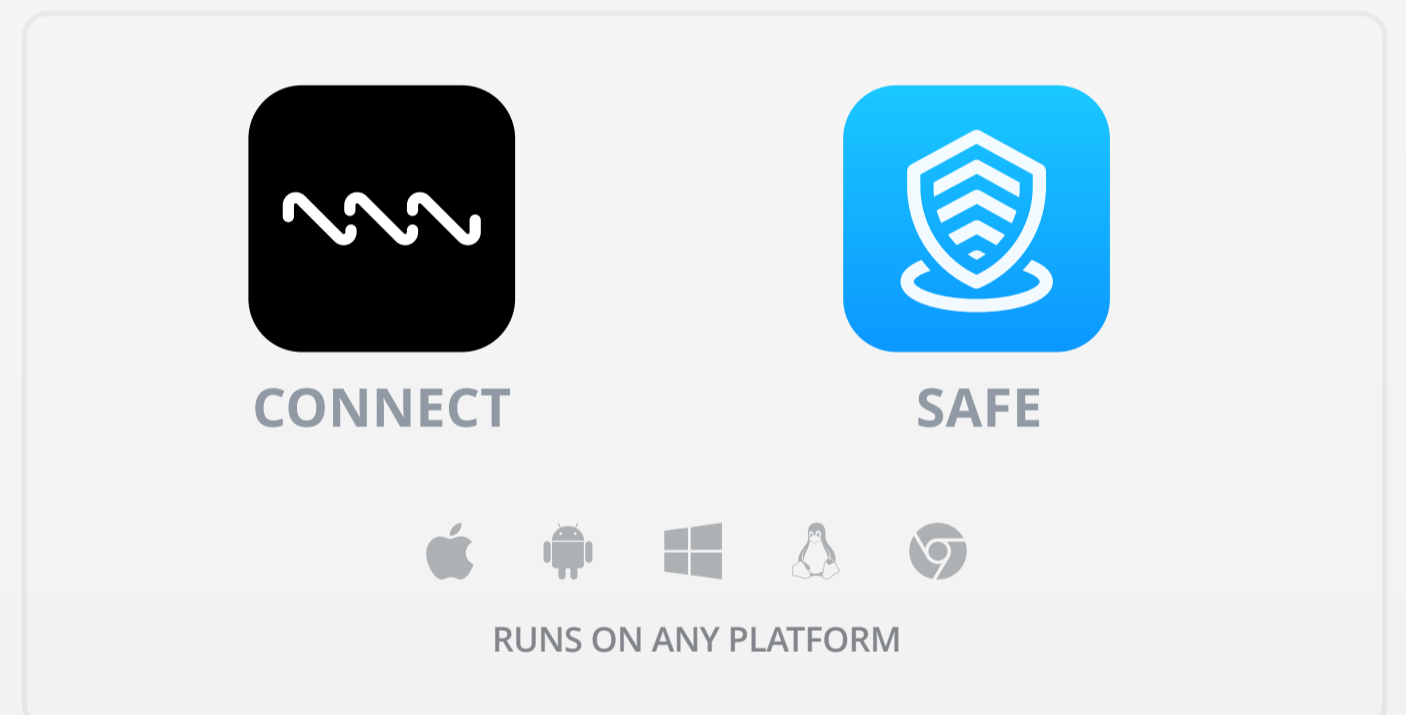

TECHNOLOGY

FAST, SECURE, RELIABLE

The GlobeKeeper suite is for anyone who needs to keep his people safe and secure, on the day to day or in an emergency situation. There are three parts of the suite: VCP (Virtual Command Platform), CONNECT, and SAFE. It uses military-grade encryption with a proprietary decentralized protocol for reliable messaging with ultra-low bandwidth that is good for situations with bad connectivity. You do you and GlobeKeeper will seamlessly streamline your team collaboration.

CONNECT   **SAFE**

RUNS ON ANY PLATFORM

FEATURES

COMMUNICATE TO THRIVE

Whether it's about coordinating, initiating, or bringing teams together, stay productive by collaborating. From emergency management using our Computer-Aided Dispatch (CAD) to ongoing team management, we've got you covered. Our Virtual Command Platform (VCP) provides real-time location tracking of team members, creation of Points of Interest (POIs), alerts upon polygon entry-exit, and multi-directional communication. CONNECT & SAFE empowers your team with live-streaming, instant messaging, file transfers for greater situational awareness. Deploy fast, integrate effortlessly, and administrate comfortably.

OUR SOLUTIONS

COMMUNITY SAFETY
BRINGING PEOPLE AND PEOPLE TOGETHER

Cut through the noise and clutter and focus on what is going on around you. SAFE utilizes the surroundings and community member reports to create situational awareness while people are out and about. Reporting incidents, calling for assistance, and receiving Emergency Response has never been easier. . The more people in your community, the faster and more accurate help you will receive.

ENTERPRISE SAFETY (Duty of care)
BRINGING COMPANIES AND PEOPLE TOGETHER

Enterprises carry the huge responsibility to keep employees safe, on top of having to focus on their actual business. Globekeeper makes that job light, fun, and seamless. It also reduces security costs. Create a stronger sense of security and loyalty within your company, so that everyone can focus jointly on success, rather than being concerned about safety.

EXECUTIVE PROTECTION
CUSTOMIZE YOUR VIP SECURITY

Keep VIPs safe without compromising privacy. Hi-speed communications and tracking capabilities within your personal security crew saves time and headache while providing quality security protection.

GOVERMENTS
RAISE THE STANDARD OF GOVERNING

Interagency collaboration - **check**. Decentralized interoperability - **check**. Live data-sharing between servers without compromising security - **check**. Maintain a high level of control and protection. Experience peace of mind knowing your data is located and secure in-house with the highest standards. Governments, we are ready to roll.
