SIMPLY SAVE LIFE

OUR SOLUTIONS:

Saving life it's all about being prepared.

In FARO we aim to provide a full set of solution to handle the most crucial issues in a disaster area. Our services include:

- **Water Shifting & Distribution**
- **Emergency Sanitation Systems**
- **Rapid Deployment Structures**

Our ability to provide needed resources to the population mainly in places then been disconnected and hard to reach.

in order to be able to reach out with all needed help striken area need and fast, our solutions keeps 3 essential guidlines :

EASY LARGE ARRAY SETUP
MINIMAL STORAGE NEEDS
SIMPLE OPREATION

OUR SERVICES:

WATER

Water Shifting & Distribution

Using unique pooling bags from 2000L - 20000L our systems provide a full functioning water shifting ability with local transport means. together with a dedicated personal 4L container, helps to maintain high quality water for the end users. we complete a full cycle from water source to consumer.

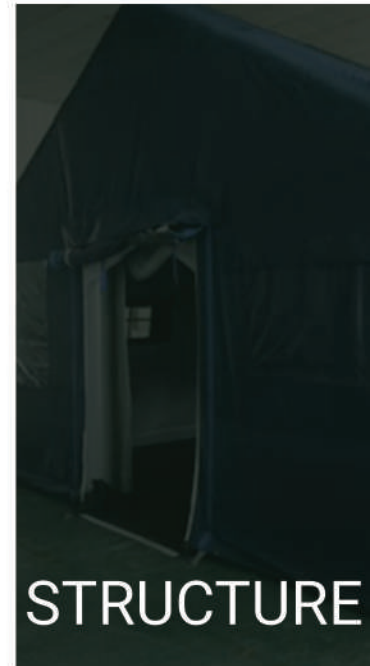

SANITATION

Emergency Sanitation Systems

a patent pending unique sanitation system. Fully independent system removes the need in running water and electricity. offers a large-scale solution with minimal labor power needed. Our methods aim to provide an overall solution for every stage from storage to disposal.

Rapid Deployment Structures

Using the latest technology and our exclusive designs, We provide a wide range of Rapid Deployment Structures for and need in a impacted area. we believe in tailor made solution and up for every challenge. among our designs you can find: Showers, Command Centers Medical structures and many more. all fully equipped with electric, water, network and lighting built in and ready to use.

STRUCTURE
