

REVITAL VISION

FROM BRAIN
SCIENCE TO
FULL VISION

ABOUT REVITAL VISION:

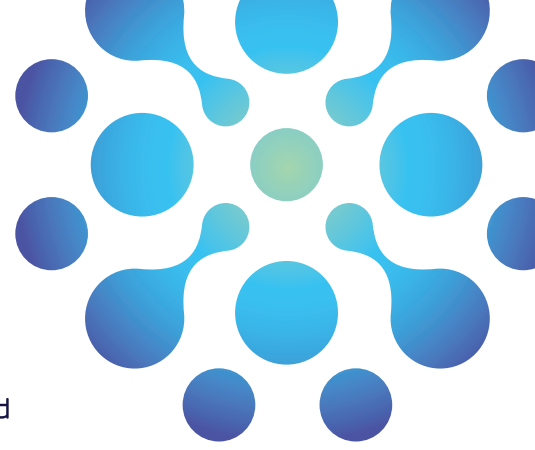

Today, the key to improving visual functions lie in addressing the brain as well as the eyes.

RevitalVision is a perceptual learning - vision training - software program, scientifically & clinically proven to improve the brain's visual processing. It provides additional significant vision improvement beyond what is currently available by only treating the eyes.

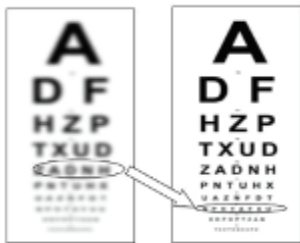

FDA
APPROVED

The only FDA approved therapy with efficacy claim for vision improvement in adult Amblyopia (9+) with no upper age limit.

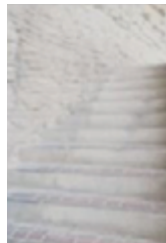

THE AVERAGE IMPROVEMENT IS:

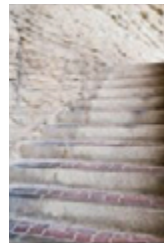

- 2.5 Lines on a Visual Acuity Eye Chart (ETDRS)
- 100% Increase in Contrast Sensitivity (FACT sine wave)
- Improvement in Stereo & Binocular functions in Amblyopia
 - Clinically Proven and Tested Worldwide
 - Controlled Randomized Trials Published in Peer Reviewed Medical Journals
 - FDA approved (for adult Amblyopia)
 - Prescribed by ophthalmologists and eye care specialists

Improvement simulation of Visual Acuity

Low contrast sensitivity

Normal contrast sensitivity

Effective in improving vision in multiple visual impairments & conditions such as:

- Congenital Nystagmus
- Stargardt Disease
- Post Refractive Surgery
- Post Cataract Surgery

ABOUT THE PROGRAM:

Home training with remote monitoring

30 minutes' x 3 times per week

30-40 training sessions

No hardware needed

Web-based program
