

Leading supportive healthcare through integrated technologies

Our Mission

AceTech is at the forefront of supportive healthcare. Our innovative approach, based on advanced skin microbiome research, aims to identify people who are at higher risk of suffering from side effects and improving their quality of life using cutting edge clinically proven Rx and OTC products.

Products

Naturally derived and clinically proven, our final products support faster wound healing, better pain relief and natural regeneration of tissues.

Our supportive care segments:

ONCOLOGY SUPPORTIVE CARE

RadiaAce, OralAce

- Radiation Dermatitis
- Oral Mucositis

ORAL CARE

OralAce Rinse, OralAce Patch

- Aphthous Stomatitis and Canker sores
- Alveolar Osteitis
- Vital pulp therapy

WOUNDS AND BURNS CARE

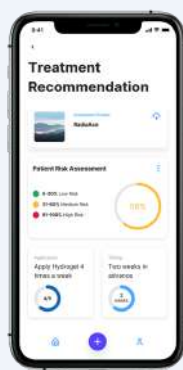

AceAid

- Diabetic foot ulcers
- Pressure ulcers
- Burns

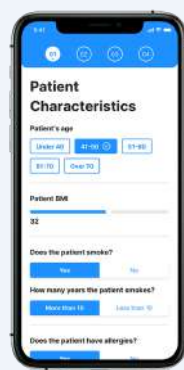

Our Edge

The first to bring the concept of precision medicine to the field of supportive care

We harness data-science, artificial intelligence (AI) and skin microbiome measurements to bring a revolutionary software tool for the prediction and diagnosis of potential side effects from medical treatments.

RadiaApp

OralApp

A Multi-Billion Dollar Market

Our solutions address common side effects

95% of radiotherapy patients will suffer from Radiation Dermatitis

45% of cancer patients undergoing treatments will suffer from Oral Mucositis

Radiation Dermatitis & Oral Mucositis:

\$1.5B

Wounds & Burns:

\$19B

Oral Care:

\$3B

Founders

ARIEL KATZ

Co-Founder & CEO

Has served as the CEO of Enzymotec, growing the company from a small startup to a successful NASDAQ IPO and secondary offering.

YAACOV BERMAN Co-Founder

President & CEO of Natural Aloe Costa Rica and former General Manager of Grupo ACI.

Acemannan

A unique functional ingredient

Acemannan is a complex polysaccharide derived from the Aloe vera leaf. It has been extensively studied and was clinically shown to have numerous biological benefits.

Unlike common products, our proprietary manufacturing process maintains the unique qualities of raw Acemannan.
