Jackson
INTERNATIONAL

Miracles made daily.

Meet Jackson International

Jackson International connects patients with expert treatment for complex medical and surgical care. Located on the 68-acre Jackson Memorial Hospital campus, part of Jackson Health System, Jackson International is proud to call one of the largest health systems in the United States home.

Jackson
INTERNATIONAL
Miracles made daily.

Our breakthrough techniques, advanced therapies, and clinical research enable our team to make miracles...

Medical expertise for complex cases and intensive care

Jackson Health System's core medical expertise covers a wide range of complex, high-risk, and catastrophic medical services. In fact, at Jackson Health System, we pride ourselves in miracles made daily.

Our breakthrough techniques, advanced therapies, and clinical research enable our team to make miracles. For example, The Women's Hospital at Jackson Memorial is one of the only birthing hospitals in Miami-Dade County where the most complex level of care is available to mothers and their babies.

Trauma And Burn Injuries

Ryder Trauma Center at Jackson Memorial Hospital is a designated Level I adult and pediatric trauma center and home to South Florida’s only burn center verified by the American Burn Association and American College of Surgeons.

Neurosciences

Led by world-renowned neurologists and neurosurgeons, the multidisciplinary neuroscience team at the Neurology and Neurosurgery Center of Excellence is comprised of leaders in advanced diagnostic capabilities on the cutting-edge of technology and surgical procedures.

- Brain attack program and stroke unit
- Neurological diseases
- Neuro-rehabilitation in one of the most advanced rehabilitation hospitals in the U.S.

Comprehensive Rehabilitation Care

At UHealth Jackson Rehabilitation Care we tailor our treatment plans to meet our patients’ specific needs, from physical injuries to neurological conditions, ensuring they learn all the skills needed to navigate daily life. Our Christine E. Lynn Rehabilitation Center offers inpatient and outpatient services and uses advanced diagnostic and treatment technology to accelerate our patient’s path to recovery.

Intensive Care

The Schatzi and Stanley Kassal Project: Newborn Neonatal Intensive Care Unit at Holtz Children’s Hospital, which pioneers groundbreaking treatment for complex cases, boasts some of the best survival rates and successful outcomes in the United States.

- Neonatal
- Pediatric

Surgery

Jackson Health System enhances its approach to complex and routine general surgery with research and educational programs.

- Abdominal
- Complex cardiovascular surgery for adults
- Maxillofacial

Solid-Organ Transplantation

The Miami Transplant Institute at Jackson Memorial Hospital is one of the world’s largest and most comprehensive transplant centers for both adults and children.

Hepatology And Diseases Of The Liver

Jackson Health System explores new therapies for diseases of the liver and makes many notable contributions to national studies.

High-Risk Procedures

Jackson’s specialized critical care experience enables surgeons to develop highly personalized patient treatment plans.

- Vascular and endovascular surgery
- Aneurism repairs
- Obstetrics

Cardiology

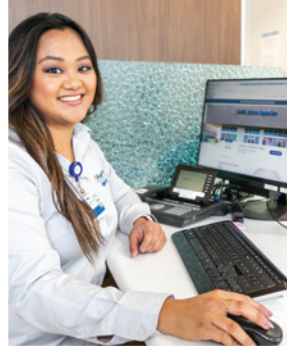

Our experienced cardiologists and cardiac surgeons at Jackson Heart Institute provide care every step of the way for all patients, from newborns to adults. We offer the most comprehensive cardiology program in Miami, specializing in interventional cardiology, cardiovascular disease, and more.

Complex Gynecology

Gynecological health concerns are approached using advanced techniques, such as robotic surgery, which allows for faster recovery and new technology for scarless procedures.

Pediatrics

Holtz Children’s Hospital, recognized as one of the top children’s hospitals in the United States, features a team of pediatric specialists providing experienced care.

Unique support for international patients

Exceptional hospitality and concierge services

We aim to enhance and speed the recovery of patients by eliminating stress and worry.

To reach this goal, Jackson International provides a one-of-a-kind medical concierge and hospitality program. The program, which supports international patients and their families, assigns a hospitality coordinator who provides compassionate, professional, and personal assistance 24 hours a day.

Luxurious Patient Reception Center

The VUMI International Patient Reception Center at Jackson Memorial Hospital is an upscale oasis for international patients and their families. The center features first-class hospital amenities in addition to luxurious waiting areas, examination rooms, and a full-service business center.

The center is staffed 24 hours a day with hospitality coordinators to assist with every aspect of the patient's stay.

24-Hour Access To Expert Medical Care

Jackson International is equipped to handle inpatient and outpatient referrals at any time. Calling **+1 305-355-1212** connects the caller with foreign medical graduates trained to facilitate all aspects of emergency medical transfers.

Essential networks support international patients

Jackson International encourages a network of hospitals and physicians to interact academically while exchanging best practices, educational opportunities, and patient referrals.

This objective is supported by:

- Conferences and peer-to-peer workshops
- Clinical staff development programs
- Teleconsultations
- Virtual medical networks
- Specialized outpatient services

Your affiliation with Jackson International strengthens our network overall and benefits your hospital or company through strong associations with a world-renowned health system.

Your support is important to Jackson Health System. To find out how you can get involved, contact the Jackson Health Foundation today at **305-585-GIVE (4483)** or **[JacksonHealthFoundation.org](https://www.jacksonhealthfoundation.org)**.

*Through our long-term
collaboration with international
doctors, hospitals, governments,
insurance companies, and
assistance companies, we
have refined the international
patient experience.*
