The Christine E. Lynn Rehabilitation Center for The Miami Project to Cure Paralysis at UHealth Jackson Memorial was designed from scratch to be one of the country’s most elite facilities for patients recovering from traumatic brain injury, spinal cord injury, cancer treatment, and other complex conditions. We are dedicated to achieving the best possible outcomes for every patient, every day. Thanks to our decades of experience rehabilitating members of our community, we’re able to offer a continuum of care with convenient “one-stop” inpatient and outpatient services and use advanced diagnostic and treatment technology to accelerate your path to recovery.
YOUR FUTURE STARTS HERE

Your life can change in a split second, making even everyday activities challenging. At Lynn Rehabilitation Center, we tailor our treatment plans to meet your specific needs, from physical injuries to neurological conditions, ensuring you learn all the skills needed to navigate your daily life. Lynn Rehabilitation Center offers a full continuum of services for adult and pediatric patients. We specialize in treating a wide range of conditions and offer our patients specialty rehabilitation services and support, including:

**Rehabilitation conditions**
- Amputation/joint prostheses

- Community outreach
- Educational programs
- Rehabilitation nursing
- Tracheostomy care and weaning
- Short-term ventilatory support
- Vocational and transitional training
- Wound care management
- Bowel and bladder training
- Wheelchair positioning and seating

**Support services**
- Medical services
- Nutritional therapy and dietary services
- Pharmaceutical services
- Respiratory services
- Pet therapy
- Diagnostic radiology services
- Pathology services
- Laboratory services
- Spiritual care
Admissions and referrals

Our inpatient and outpatient settings provide ongoing medical care, education, and emotional support for patients, their families, and individuals throughout the community who need specialized rehabilitation services. The admission and referral process is simple. For admissions and referrals, call 305-585-9600.

The road to recovery

Upon admission, each patient is evaluated by our team to establish performance, activities of daily living, functional mobility, memory and attention, social adjustment, and safety. Results of the evaluation along with input from you and your family are used to determine the appropriate plan and goals for discharge. Our team will then develop therapy based on your needs and will monitor program goals and progress throughout your stay. Our goal is to return you home and to restore you to your optimum level of independence.

What you will need

To help make your stay more comfortable bring loose-fitting clothing and personal items from home. A washer and dryer are available in the unit for patients and families.

WE RECOMMEND THE FOLLOWING ITEMS:

- Gym clothes
- Shirts
- Underwear
- Warm pajamas
- Robe
- Lightweight jacket or sweater
- Closed rubber-soled shoes
- Socks
- Feminine hygiene products
- Any aids such as dentures, glasses, hearing aids, and batteries
- Toiletries
  - Toothbrush
  - Toothpaste
  - Comb
  - Shampoo and conditioner
  - Shaving essentials
  - Lotions
- Gym clothes
- Shirts
- Underwear
- Warm pajamas
- Robe
- Lightweight jacket or sweater
- Closed rubber-soled shoes
- Socks

Intensity

Each patient will receive a minimum of three hours of intense therapy, including physical, occupational, and/or speech, for five days a week or 15 hours a week (seven days) for an estimated total of 10 to 14 days.

For your convenience

Our rooms are equipped with Wi-Fi, televisions, and clocks. At your discretion, you may bring other personal devices, but Lynn Rehabilitation Center does not assume liability if damage, loss, or theft occurs. We recommend you leave your valuables at home.

Family support

Family and caregivers are an integral part of every recovery treatment plan. We provide comprehensive education, physical training, advocacy training, and supportive counseling to prepare the family or the needs of the patient moving forward. We encourage family and caregiver participation throughout their loved one’s stay.

Neuropsychology and rehabilitation psychology

We provide inpatients and outpatients with a comprehensive array of neuropsychological, behavioral medicine, and rehabilitation psychology services by a team of specialized experts.

Admissions and referrals

Our inpatient and outpatient settings provide ongoing medical care, education, and emotional support for patients, their families, and individuals throughout the community who need specialized rehabilitation services. The admission and referral process is simple. For admissions and referrals, call 305-585-9600.
WHY CHOOSE US

We get you home sooner
On average, Lynn Rehabilitation Center patients show more functional improvement than patients at other rehabilitation facilities, both locally and nationally. With a strong emphasis on quality outcomes, we provide excellent services to help patients achieve the highest level of independence possible.

Unrivaled resources
Lynn Rehabilitation Center is part of an academic medical center, which provides a depth of resources unavailable to most rehabilitation programs. Physician members of the team are faculty of UHealth—University of Miami Health System departments of physical medicine and rehabilitation, neurology, neurosurgery, pediatrics, and orthopaedics.

Team-based approach
Our team of physicians, speech pathologists, nurses, physical, occupational, and recreational therapists, rehabilitation navigators, psychologists, professional, and support staff, work together to ensure coordination of care throughout recovery.

Accreditation
We are one of only two facilities in Florida accredited to train physical medicine and rehabilitation physicians. Lynn Rehabilitation Center has been awarded accreditation by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), and the State of Florida Brain and Spinal Cord Injury Programs.

OUR STRENGTH IN NUMBERS
Our team achieves the best possible outcome for patients. These models illustrate how our coordinated care leads to maximum outcomes:

LENGTH OF STAY (DAYS)
(Lower is better)

- Lynn Rehabilitation Center: 13 days
- National Average: 13 days

Reduced length of stay for patients in 2020.

DISCHARGE TO HOME
(Higher is better)

- Lynn Rehabilitation Center: 85%
- National Average: 82.4%

The percentage of total patients who were discharged home in 2020 instead of being discharged to another facility.

FUNCTIONAL EFFICIENCY
(Higher is better)

- Lynn Rehabilitation Center: 3.48%
- National Average: 3.07%

The amount of functional improvement patients gained per day.
PATIENTS SERVED IN 2020

PATIENT SATISFACTION

This score reflects how happy our patients are with their health care and the likelihood that they would recommend Lynn Rehabilitation Center.
