

Privacy Notice for Topaz

The design philosophy that we at JUUL Labs, Inc. chose for the Topaz browser centers around keeping your data on your device. Topaz operates locally and does not communicate with our servers to collect or transmit any personal information. That means that the Topaz browser **does not collect any personal data from you.**

To be absolutely clear, the Topaz browser does **not** collect any of the following:

- **Browsing History:** We do not track or store the websites you visit. Your browsing history remains solely on your device.
- **Search Queries:** We do not record or transmit your search terms.
- **Cookies and Site Data:** While websites you visit may use cookies and store data locally on your device, Topaz itself does not access, collect, or transmit this information. You have full control over managing cookies and site data through the browser's settings.
- **Form Data:** Information you enter into online forms (like names, addresses, passwords, etc.) is not collected or stored by Topaz.
- **Location Data:** We do not track your geographical location.
- **Device Information:** We do not collect details about your device, such as your operating system, hardware specifications, or unique identifiers.
- **IP Address:** Topaz does not log or transmit your IP address. Websites you visit and your internet service provider will have access to your IP address, but our browser does not collect it.
- **Username and Passwords:** We do not store or have access to your usernames and passwords.
- **Usage Data:** We do not track how you use the browser itself (e.g., which features you use, how long you browse).
- **Bookmarks** – We do not have access to any bookmarks of websites that you create, as these are stored locally.
- **Bluetooth** – The Topaz browser enables websites to connect to local Bluetooth devices for users who enable this in their settings. We do not track or store information about any connected device (but this may be tracked by some websites).

Please be aware that while the Topaz browser does not collect your personal data, the websites you visit and the online services you use may do so. You may want to review the privacy notices of websites you visit on the Topaz browser and limit their ability to track your browsing, including by managing your cookie preferences.

Thank you for choosing Topaz. We are committed to providing you with a private and secure browsing experience. If you have any questions relating to this Topaz Privacy Notice, please feel free to contact us at dataprivacy@juul.com.
