

ref. 12977

FLUID DETECTOR LEAKS FOR AIR CONDITIONING SYSTEM.

250 ML

Function

This neutral fluorescent liquid is designed to be inserted into the air-conditioning and refrigeration system to detect the leak quickly.

For correct use, apply 7.5 ml per 1.4 litres of coolant.

Technical specifications

Capacity	250ml
Chemical composition	Synthetic base oil with additives
Physical status	Liquid
Colour	Yellow
Odour	Typical
pH	5.5-7.5 (16.7% Isopropyl alcohol/water 10/6)
Water solubility	Partially soluble
Density at 15°C	0.997kg/l
Boiling point hPa	Decompose before boiling
Flash point (C.O.C)	225°C
Pour point	-34°C
Kinematic viscosity at 40°C	103.4 cSt
Weight	0.33kg
Measures	17.5x5.5x10cm
