

ref. 16130

METER FOR CHARGER 54265

Function

This meter is an advanced and multifunction solution for three-phase monitorization.

It is equipped with configuration buttons and visualization to facilitate the navigation through the different parameters and settings.

Advantages

- Housed for DIN mounting
- MID certified

Technical specifications

Nominal voltage	3x230/400V AC
Basic current	10A
Maximum rated current	100A
Working frequency	50/60 Hz
Bus type	RS485 (semi-duplex)
Communication protocol	Modbus RTU
Baud rate	2400/4800/9600/19200/3400bps
Type of display	LCD screen
Protection level	IP51
International standards	IEC 62053-21 / EN50470-1/3
Accuracy class	Class 1 / Class 2
Installation category	CAT III
Mounting support	DIN rail
Working relative humidity	≤ 90%
Storage relative humidity	≤ 95%
Working temperature	-25°C ~ 55°C
Storage temperature	-40°C ~ 70°C
